Society SAGE

"A glossary of key concepts was just the sort of thing I needed when I was a sociology student. Peter Braham has written a lively, comprehensive guide to the most important concepts in our discipline. It will become an essential student resource." - David Silverman, Goldsmith's and King's College, University of London "A triumphant tour de force... will be a useful, even essential tool for

students and faculty. It is actually fascinating reading even for non-sociologists since these ideas impact all of us all the time." - Anthony Synnott, Concordia University in Montreal "A crisp and comprehensive guide to the discipline. The thirty-eight entries, covering history, substance and evaluation, thereby describe both conventional and new topics that define the syllabus of modern sociology. A valuable guide to both teachers and students." - Bryan S. Turner, Presidential Professor of Sociology, CUNY USA Sociology consists of a myriad of frequently confusing concepts. Key Concepts in Sociology provides a comprehensive, lively and clearly-written guide to the most important concepts in the subject. It includes both what might be regarded as 'classic'

sociological concepts, such as 'class', 'bureaucracy' and 'community', as well as subjects that have become increasingly prominent in recent times, such as 'celebrity', 'risk' and 'the body'. Each of the thirty-eight substantive entries: defines the concept provides a clear and compelling narrative clarifies the main debates, perspectives and disagreements gives advice on further reading Key Concepts in Sociology should be the first choice for sociology students at all levels of learning.

**Sociology for Social Workers** Constable The notion of vulnerability is critical to person-centred and high-quality nursing and healthcare practice, and underpins all nursing education. Understanding Vulnerability: a Nursing and Healthcare Approach focuses on vulnerability experienced every day by

patients and clients in healthcare, and provides clear and supportive guidance to nurses and other healthcare practitioners on protecting and caring for vulnerable patients. Taking a fresh, critical and reflective perspective that reflects current trends towards the promotion of equality and acknowledges everyone's vulnerability, this book is essential reading for all nursing and healthcare students, as well as healthcare practitioners who are committed to providing person-centred care. Special features: •One of the first books to address the issue of vulnerability from a nursing and healthcare perspective •Written by a group of experienced professionals, academics and educationalists with both educational and research expertise in the exploration of vulnerability •Includes narratives, perspectives and case studies, illustrating and bringing to life the issues within the book

**Sociology for nurses 2/e** Routledge

A lively, accessible and comprehensive introduction to the diverse ways of thinking about social life, **Sociology: The Basics** has been translated into six languages. The volume is packed with thought-provoking summaries, questions, quotations and activities. It offers an absorbing narrative about what we mean by the social, and how we can think about it, weaving in discussions

of the personal, the political and social change, along with concepts and vivid contemporary examples, and answering questions such as: What is the scope, history and purpose of sociology? How do we cultivate ways of understanding society and 'the social'? What is the state of the world we live in today? How do we analyse suffering and inequalities? What are key methods and tools for researching and thinking about society? How has digitalism reshaped sociology and its method? How might sociology help us understand the changes brought about by Covid-19? Does sociology have values? What is the role of sociology in making a better world? In this thoroughly revised and updated Third edition the reader is encouraged to think critically about the structures, meanings, histories and cultures found in the rapidly changing world we live in. With tasks to stimulate the sociological mind and suggestions for further reading both within the text and on an accompanying website, this book is essential reading for all those studying sociology and those with an interest in how the modern world

works.

**Citizenship in Motion** Routledge

Macionis's **Social Problems** is the only social problems text that explains how society frames social problems and solutions through politics. The text analyzes social issues and policies, using the concepts of sociological theory and the everyday language of politics. This text helps students understand the attitudes and values that define the political spectrum in the United States. Once students know how social problems are defined by our society through politics, and how the policies to solve these problems are developed, students are able to become involved in solving social problems through activism and political involvement.

**Sociology: The Basics** John Wiley & Sons

This is a collection of articles dealing with the point of view of symbolic interactionism and with the topic of methodology in the discipline of sociology.

It is written by the leading figure in the school of symbolic interactionism, and presents what might be regarded as the most authoritative statement of its point of view, outlining its fundamental premises and sketching their implications for sociological study. Blumer states that symbolic interactionism rests on three premises: that human beings act toward things on the basis of the meanings of things have for them; that the meaning of such things derives from the social interaction one has with one's fellows; and that these meanings are handled in, and modified through, an interpretive process.

#### *Story of Sociology* JHU Press

This volume provides a fresh approach to the study of introductory sociology. It looks at the social world from a global perspective, recognising that it is increasingly difficult to understand one country in isolation from another.

#### Introduction to Gender Routledge

A “very welcome volume” of essays questioning the presumption of irreconcilable conflict between science and religion (British Journal for the History of Science). The “conflict thesis”—the idea that an inevitable, irreconcilable conflict exists between science and religion—has long been part of

the popular imagination. The Warfare between Science and Religion assembles a group of distinguished historians who explore the origin of the thesis, its reception, the responses it drew from various faith traditions, and its continued prominence in public discourse. Several essays examine the personal circumstances and theological idiosyncrasies of important intellectuals, including John William Draper and Andrew Dickson White, who through their polemical writings championed the conflict thesis relentlessly. Others consider what the thesis meant to different religious communities, including evangelicals, liberal Protestants, Roman Catholics, Eastern Orthodox Christians, Jews, and Muslims. Finally, essays both historical and sociological explore the place of the conflict thesis in popular culture and intellectual discourse today. Based on original research and written in an accessible style, the essays in *The Warfare between Science and Religion* take an interdisciplinary approach to question the historical relationship between science and religion, and bring much-needed perspective to an often-bitter controversy. Contributors include: Thomas H. Aechtner, Ronald A. Binzley, John Hedley Brooke, Elaine Howard Ecklund, Noah Efron, John H. Evans, Maurice A. Finocchiaro, Frederick Gregory, Bradley J. Gundlach, Monte Harrell Hampton, Jeff Hardin, Peter Harrison, Bernard Lightman, David N. Livingstone, David Mislin, Efthymios Nicolaidis, Mark A. Noll, Ronald L. Numbers, Lawrence M. Principe, Jon H. Roberts, Christopher P. Scheitle, M. Alper

Yalçinkaya

#### *Class and Politics in Contemporary Social Science* Routledge

The main focus of this sociology text is the UK, Europe and North America. A recurrent theme throughout is that the modern world is becoming progressively globalized, and that it is therefore increasingly impossible to understand one country in isolation from another. The student is also encouraged to engage with the subject through such features as opening vignettes and critical thinking questions.

#### *Symbolic Interactionism* Routledge

Presenting an introduction to the diverse ways of thinking about social life, this book examines: the scope, history and purpose of sociology; ways of understanding 'the social'; the state of the world we live in; suffering and social inequalities; key tools for researching and thinking about the social; and, the impact of the technologies.

#### *Sociology* Univ of California Press

Placing an emphasis on global perspectives and current research, this wide praised and adopted sociology textbook introduces the reader to the field of sociology. & John Macionis, like many people, took a college course that shaped his life. His first sociology course helped him make sense of the world.

---

John shares his enthusiasm, excitement, and teaching experience through a clear and engaging writing style and emphasis on sociology's relevance to everyday life.

*The Oxford Handbook of Qualitative Research* Bloomsbury Publishing

This book examines volunteering in detail from a civil society perspective, using empirical data garnered from various sources for countries all over the globe. The contributions deal with a broad spectrum of questions, ranging from the diversity, social and cultural determinants and organizational settings of volunteering, to its possible individual, social, and political effects.

**A Sociology of Ireland** Bloomsbury Publishing

This textbook provides a survey of sociology. As the scientific study of society, sociology is a social science which uses various methods of empirical investigation and critical analysis to develop a body of knowledge about human social activity. It focuses on the influence of our relationships around us and how they affect our behaviors and attitudes. The author approaches this subject with a desire to help students find and use sociology in everyday life.

*Cities and Urban Life* Bloomsbury Publishing

'A brilliant synthetic essay of theoretical importance in its own right.' Jeffrey C. Alexander,

Yale University, USA 'McLennan takes us on an absorbing journey that will provide illumination to newcomers to sociology and seasoned veterans alike. This is a fascinating version of the story so far, and an expansive vision of the road ahead.' Rob Stones, University of Essex, UK What does sociology involve? How did its key concepts and perspectives develop? What is the scope and relevance of sociology today? These are the fundamental questions that motivate every new and returning student of sociology, and they lie at the heart of this unique book. Situating sociology within the wider context of social theory, *Story of Sociology* takes us from the intellectual tensions of Enlightenment thought, through the American-dominated twentieth century, to the latest debates in the discipline. Accessible and inspiring, succinct yet challenging, this book is an ideal companion to any introductory sociology or social theory course.

'This is an excellent short introduction to sociological theory, superbly capturing the dilemmas of sociological argument as well as its different traditions and sensibilities.' John Holmwood, University of Nottingham, UK 'Story of Sociology is more than a simple history; it is a compelling invitation to enter the sociological imagination. Extraordinary in its scope and clarity, this book links current departures to enduring themes and captures the dynamic positioning of sociology in the contemporary age.' Lisa Adkins, University of Newcastle, Australia *Global Sociology* Pearson College Division *Sociology: A Global Introduction* represents a

uniquely co-ordinated and complete learning resource for sociology students worldwide. International in outlook and culturally wide-ranging, it also reminds us that sociology is valuable. Unrivalled in breadth, it is a text of passion and sophistication helping you become an active, connected and critical learner. **Public Sociology** John Wiley & Sons

Informed by 'critical religion' perspective in Religious Studies and postcolonial self-reflection in Sociology, this book interrogates the ideas of 'religion' and 'the secular' in social theory and Sociology. It argues that as long as social theory and sociological discourse embed the religion-secular distinction and locate themselves on the 'secular' side of the binary, Sociology will continue to serve the very ideologies it tries to subvert – namely Western modernity/coloniality.

**Sociology** Routledge

A core introduction to Sociology that puts global issues at the heart of its discussion. From recessions and revolutions to social media and migration, this third edition is fully updated to explore just how these issues can help us to understand the role of Sociology in our world today. With clear writing and infectious enthusiasm for its topic, it evaluates the connections between everyday experiences and larger processes. Combining discussion of global challenges with an emphasis on critical thinking, this lively text offers an engaging introduction, ideally suited for first-year Sociology modules. In addition, it can be used as a

standalone text on more specialised modules on Globalisation, or as complimentary reading on courses dealing with issues such as Work, Class and Gender, Race, Crime or Leisure from a global perspective. New to this Edition: - Incorporates coverage of the global financial crisis, the environment, family and intimacy, and technology - An improved companion website with resources for students at more advanced stages and for instructors - Updated further guidelines for primary sources and additional reading

**The Values of Volunteering** Polity

Sexuality is a complex and multifaceted domain – encompassing bodily, contextual and subjective experiences that resist ready categorisation. To claim the sexual as a viable research object therefore raises a number of important methodological questions: what is it possible to know about experiences, practices and perceptions of sex and sexualities? What approaches might help or hinder our efforts to probe such experiences? This collection explores the creative, personal and contextual parameters involved in researching sexuality, cutting across disciplinary

---

boundaries and drawing on case studies from a variety of countries and contexts. Combining a wide range of expertise, its contributors address such key areas as pornography, sex work, intersectionality and LGBT perspectives. The contributors also share their own experiences of researching sexuality within contrasting disciplines, as well as interrogating how the sexual identities of researchers themselves can relate to, and inform, their work. The result is a unique and diverse collection that combines practical insights on field work with novel theoretical reflections.
