Douglas Equipment Inc. V. Mack Trucks, Inc Hearst Communications

The Mack Model NR was a heavy truck constructed for military use from 1940 to 1945 by the Mack Manufacturing Corporation of New York U.S.A. The Model NR was mainly used to tow trailers carrying heavy equipment such as tanks and large bulldozers. It was also used to tow heavy field guns. Its wide bogie axles and extra large tires were ideal for desert service, allowing them to "float" on the sand. Many Model NRs were supplied under the Lend-Lease Program to Great Britain, Australia, Russia and other Allied countries. The Mack diesel engine in the Model NR was the result of nearly a decade of development work by the innovative company, which was the first truck manufacturer to produce its own engines. It used the Lanova combustion chamber design. It produced 131 brake horsepower with 519 cubic inches of displacement. It offered a significant improvement in fuel economy, durability, driveability and torque. Mack's long history with the military dates to 1911, when the company began an affiliation with the War Department. During WWI the company supplied trucks to the British, and in fact Mack's famous "Bulldog" nickname was started by Tommys who, when facing daunting terrain, would yell, "Send in the Mack Bulldogs." Created in 1944, this technical manual reveals a great deal about the Mack Model NR's design and capabilities. Originally labeled restricted, this manual was declassified long ago and is here reprinted in book form. Care has been taken to preserve the integrity of the text.

Fundamentals of Chemical Engineering

Thermodynamics is the clearest and most well-organized introduction to thermodynamics theory and calculations for all chemical engineering undergraduates. This brand-new text makes thermodynamics far easier to teach and learn.

Drawing on his award-winning courses at Penn State, Dr. Themis Matsoukas organizes the text for more effective learning, focuses on why as well as how, offers imagery that helps students conceptualize the equations, and illuminates thermodynamics with relevant examples from within and beyond the chemical engineering discipline. Matsoukas presents solved problems in every chapter, ranging from basic calculations to realistic safety and environmental applications.

Truck & Tractor Repair Manual William Morrow & Company

This book explains how an organization can measure and manage performance with the Balanced Scorecard methodology. It provides extensive background on performance management and the Balanced Scorecard, and focuses on guiding a team through the step-by-step development and ongoing implementation of a Balanced Scorecard system. Corporations, public sector agencies, and not for profit organizations have all reaped success from the Balanced Scorecard. This book supplies detailed implementation advice that is readily applied to any and all of these organization types. Additionally, it will benefit organizations at any stage of Balanced Scorecard development. Regardless of whether you are just contemplating a Balanced Scorecard, require assistance in linking their current Scorecard to management processes, or need a review of their past measurement efforts, Balanced Scorecard Step by Step provides detailed advice and proven solutions.

1942 - 1944 Military Mack Cargo Truck Parts Catalog John Wiley & Sons

This 1942 - 1944 Military Mack Cargo Truck Parts Catalog - 10-Ton, NR8 - NR13 is a high-quality, licensed PRINT reproduction of the parts catalog authored by Headquarters, Army Service Forces and published by Detroit Iron. Register and Manual - State of Connecticut

"The rhythmic, onomatopoeic text dances across exuberant watercolors with lots of movement. This celebration of a child ' s agency in choosing a means of artistic expression strikes just the right note." --Kirkus
"A delightful offering for reading aloud, especially during music-themed storytimes." --School Library Journal
From New York Times bestselling author Chris Barton and new illustrator Louis Thomas comes a fun, rhythmic picture book about finding the music that is perfect for you! A boy who loves to make noise gets to pick only one instrument (at his parents urging) in a music store, but there is too much to choose from! There ' s triangles and sousaphones! There ' s guitars and harpsichords! Bagpipes and cellos and trombones! How can he find the one that is just right for him out of all those options?
