nonliving things that... Some organisms make their own food in a process. The place where an organism lives and that provides the things... Organism.

Grade 4 - Chapter 1 - Macmillan/McGraw-Hill
Macmillan Science is a six-level Primary Science course designed to meet the needs of international learners. The course bridges the gap between mainstream curriculum learning and CLIL or English medium learning. Each level promotes a modern pupil-centred approach to science learning with clearly structured lessons and carefully graded activities.
