While folks enjoy my stories –  
– as well as the play scenes in  
there, stories at the end of the  
day are just that – stories. True,  
they’ve got experiences within  
them – – experiences a lot of

---

subs would LOVE to have – – but first, one has to get to the point of having them experiences, and having them regularly (and with minimal effort invested in “trying” to find the right partners to do it with!). I’ve often mentioned how effortless it is – and has been, ever since I can recall for me to “draw” femdom in all it’s wily shapes, guises and forms to me – – and vice versa, for ME to drawn to dominant ladies without EVER consciously TRYING! Why is a moth attracted to a flame? Why is a honeybee attracted to pollen? Why are men that respect women at a deeper level than just fetish/sex the ones that “get laid” all the time without even thinking about it or – get this – even “desiring” it? Why do we always “succeed” at things we rarely think about on a conscious level? There’s a scientific and rational explanation for all this, of course, especially the last one which is key. But the key thing my friends, is FEELING – and vibration. And THIS vibration, these VIBES, my friends, are what CONTROL ALL ASPECTS OF YOUR LIFE BAR NONE. Anyway, that is a tip right there for you – – but moving ahead, lots of folks have asked me just how and why it’s so easy and seemingly effortless for me to have the experiences I do. And while I’ve already mentioned it – – and will mention it numerous times throughout the tips mentioned beneath, there are those that still wont “find the secret”. To those people, read this manual – re-read it, and then re-read it AGAIN until it literally becomes a part of you, and therein you have part of the secret. I wish I could tell you what the secret is in plain English, but I can’t. First, it’s not that easy to define (well, it

---

is, but it isn't a one size fits all classification) – – but more importantly and second, me telling you what it is would deprive you of the wondrous benefits YOU will receive once you do some deep, deep soul searching and make the “discovery” your own way! Third, lots of folks need to know “how” in addition to the “secret” ... more how to's than I cover in my books etc. Useful, practical workable tips that WILL (much like in my pathbreaking “A complete guide to understanding dominant Chinese women from the mainland) get you further along the path to finding the perfect match in terms of a dominant lady for you ... and QUICKLY at that! So here goes. Dive in, enjoy – and be sure to let me know your feedback! This book is for YOU if you're a male submissive, and ... Looking for tips on how to take your submission to the next level. Looking for the perfect ways to not only FIND – – but attract, and keep the dominant lady of your dreams in regal style as she so deserves! Someone that is looking to learn the mental tips and tricks of domination, and how to attract domination/submission without even seemingly “trying”. This book is ALSO FOR YOU if you're a dominant lady, and ... You are interested in the MENTAL side of BDSM, and using the MIND to enhance play more than actual “physical actions” ever could. Someone who is interested in learning more tips and tricks to further humiliate, debase, degrade and emasculate your “man” – – as he (she?) deserves to be! Learning how to enjoy living life as a true Queen (as you DESERVE to be!) – -and how to get there! Going way, way into a man's subconscious

"Game Feel" exposes "feel" as a hidden language in game design that no one has fully articulated yet. The language could be compared to the

building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. Feel and sensation are similar building blocks where game design is concerned. They create the meta-sensation of involvement with a

game. The understanding of how game designers create feel, and affect feel are only partially understood by most in the field and tends to be overlooked as a method or course of study, yet a game's feel is central to a game's success. This book brings the subject of feel to light by consolidating

---

existing theories into a cohesive book. The book covers topics like the role of sound, ancillary indicators, the importance of metaphor, how people perceive things, and a brief history of feel in games. The associated web site contains a playset with ready-made tools to design feel in games, six	key components to creating virtual sensation. There's a play palette too, so the designer can first experience the importance of that component by altering variables and feeling the results. The playset allows the reader to experience each of the sensations described in the book, and then allows them to	apply them to their own projects. Creating game feel without having to program, essentially. The final version of the playset will have enough flexibility that the reader will be able to use it as a companion to the exercises in the book, working through each one to create the feel described.
