Backpacker Menasha Ridge Press

Covers all aspects of pesticide principles and use,

including topics such as: environmental considerations; insects; plant disease agents; weeds; integrated pest management; laws; liability; recordkeeping; labels; safety; formulations; application equipment; transportation; storage; decontamination; and disposal. Using a non-technical presentation, it helps readers gain an understanding of why pesticides are used, how to apply them safely and how to do this within the letter of the law. Supplies the necessary information for pesticide applicators to use pesticides in a responsible manner. Offer readers quick and easy access to reference material such as the United States and Canadian Pesticide Control Offices, restricted use pesticides, pesticide information telephone numbers and Web page addresses, cold weather handling of liquid chemical products, etc. Because the science of pesticide use has become a highly specialized field, this book is an excellent desk reference for those seeking recertification and those

currently working in the field.

CLICK HERE to download the first chapter from Wilderness GPS * Simple, focused, and accessible, Wilderness GPS is for anyone using GPS in an outdoor setting * Trust us: first-timers need help to use their new backcountry GPS devices * From the authors of the bestselling Wilderness

Navigation (65,000 copies sold) Thousands have learned compass and map skills with the help of father-and-son team Bob and Mike Burns and their straightforward, simply explained book, Wilderness Navigation. Now they've written a book for everyone who has bought a backcountry GPS device and found it inexplicably complicated to use (which includes most of us). Wilderness GPS is an easy-to-use guide to get you navigating the outdoors with your handheld GPS device. Wondering how to choose from

the variety of gear and computer programs, or how to use a GPS with your map and compass effectively? Wilderness GPS details this and more including: * How to select your GPS gear * Getting started and practice routines * Different coordinate systems: latitude and longitude vs. Universal transverse Mercator (UTM) * Routefinding in wilderness settings, including common scenarios * GPS vs. map and compass routefinding * Using GPS on water * Using your GPS with a home computer or mobile

"smart" device Bob Burns and Mike Burns are the authors of Wilderness Navigation, a nationally bestselling primer that serves as the official textbook for navigation courses taught by The Mountaineers and other outdoor education centers. Together, they have decades of professional experience in teaching map and compass, GPS, and navigation in the outdoors and have hiked, scrambled, climbed, and snowshoed all over the West Coast and beyond. They both live in Seattle.
