Steampunk! An Anthology of Fantastically Rich and Strange Stories Small Beer Press

In the first major YA steampunk anthology, fourteen top storytellers push the genre's mix of sci-fi, fantasy, history, and adventure in fascinating new directions. Imagine an alternate universe where romance and technology reign. Where tinkerers and dreamers craft and re-craft a world of automatons, clockworks, calculating machines, and other marvels that never were. Where

scientists and schoolgirls, fair folk and Romans, intergalactic bandits, utopian revolutionaries, and intrepid orphans solve crimes, escape from monstrous predicaments, consult oracles, and hover over volcanoes in steam-powered airships. Here, fourteen masters of speculative fiction, including two graphic storytellers, embrace the genre's established themes and refashion them in surprising ways and settings as diverse as Appalachia, ancient Rome, future Australia, and alternate California. Visionaries Kelly Link and Gavin J. Grant have invited all-new explorations and expansions, taking a genre already rich, strange, and inventive in the extreme and challenging contributors to remake it from the ground up. The result is an anthology that defies its genre even as it defines it.

Philip K. Dick Award finalist Washington Post Best Science Fiction and Fantasy of 2018 Abbey Mei Otis 's short stories are contemporary fiction at its strongest: taking apart the supposed equality that is clearly just not there, putting humans under an alien microscope, putting humans under government control, putting kids from the moon into a small beach town and then the putting the rest of the town under the microscope as they react in ways we ope they would, and then, of course, in ways we 'd hope they don ' t. Otis has long been fascinated in using strange situations to explore dynamics of power, oppression, and grief, and the twelve stories collected here are at once a striking indictment of the present and a powerful warning about the future. " After I read this book, I woke up with bumpy, reddish growths along my spine. They burst, releasing marvels: aliens, robots, prefab houses, vinyl, chainlink, styrofoam, star stuff, tales from the edge of eviction, so many new worlds. Alien Virus Love Disaster is a super-intelligent infection. Let Abbey Mei Otis give you some lumps. " — Sofia Samatar, author of *Tender* Half Life Candlewick Press
