The A77 differs from the current crop of DSLRs in its ability to use a phase detection focusing system throughout the entire picture-taking process, for both still photographs and videos. This provides an immediacy and responsiveness when using burst shots and creating HD videos that is unavailable in any other camera. In this guide, authors Carol Roullard and Brian Matsumoto teach you how to obtain exceptional

A confidence-boosting program based on the spiritual insights of Sanskrit, the language of enlightenment • Draws on traditional stories

---

from East and West and scholarly works to reveal the wisdom behind Sanskrit words and how to experience them to transform our lives and build confidence, certainty, clarity, and success • Explains the fourfold energy of the Conscious Confidence program: Focusing, Uniting, Simplifying, and Energizing • Offers practical exercises for discovering our inner certainty and overcoming fear, anxiety, and insecurity Called “the language of enlightenment,” Sanskrit is truly unique among all the languages of the

world. This ancient language, upon which so many of our English words are based, gives us an entire system to show what to do in order to experience the full meaning of a word. In this profound way, Sanskrit offers a touchstone of timeless wisdom that each of us can access to transform our lives and build confidence, certainty, clarity, and success. In Conscious Confidence, Sanskrit scholar Sarah Mane offers a practical confidence-boosting program, derived from the deepest meanings of Sanskrit concepts, to help you establish a

safe and secure reference point from which to see the world and make clear decisions on how to act, what to say, and how to feel. She explores the Sanskrit roots of English words related to confidence and success, unlocking rich, three-dimensional understandings of each word as well as guidance on how to obtain confidence and find your path in life. For example, the word attitude, based on its Sanskrit roots, means “our point of view, our intent, and our conduct.” A positive attitude means we have a self-aware point of view, have

---

an intent for the good, and conduct ourselves in ways that reflect both. This true attitude gives us a positive and powerful place from which to view the world. The author also incorporates traditional stories from East and West, such as the Mahabharata and the works of Plato, scholarly references, and accounts of people discovering hidden depths in their own lives through the ancient truth of Sanskrit. Drawing upon the deeper meanings behind several Sanskrit words for confidence, Mane outlines principles for harnessing the	fourfold energies of Conscious Confidence and offers practical exercises for discovering our inner certainty. She explains how the Conscious Confidence method allows us to tackle the growing anxiety and fear that hang like a shadow over many of us and look to the unchanging core of selfhood for certainty, rather than ever-changing externals. With the Conscious Confidence program and the wisdom of Sanskrit, you can discover a strong and steady inner source of compassion, self-direction, self-empowerment, and	the life force of self-confidence. <i>The Book of the Lantern</i> Sterling Publishing Company Go far beyond the manufacturer's instruction book and take full advantage of all of the Nikon D200's innovative features with the help of this Magic Lantern Guide. Sterling Publishing Company, Inc. The Magic Lantern is one of those rare books that capture history in the making, written by an author who was witness to some of the most remarkable moments that marked the collapse of Communism in Eastern Europe. Timothy Garton Ash was there in

Warsaw, on 4 June, when the communist government was humiliated by Solidarity in the first semi-free elections since the Second World War. He was there in Budapest, twelve days later, when Imre Nagy - thirty-one years after his execution - was finally given his proper funeral. He was there in Berlin, as the Wall opened. And most remarkable of all, he was there in Prague, in the back rooms of the Magic Lantern theatre, with Václav Havel and the members of
