The Chronology of Water New World Library

David Carr was an addict for more than twenty years -- first dope, then coke, then finally crack -- before the prospect of losing his newborn twins made him sober up in a bid to win custody from their crack-dealer mother. Once recovered, he found that his recollection of his 'lost' years differed -- sometimes radically -- from that of his family and friends. The night, for example, his best friend pulled a gun on him. 'No,' said the friend (to David's horror, as a lifelong pacifist), 'It was you that had the gun.' Using all his skills as an investigative reporter, he set out to research his own life, interviewing everyone from his parents and his ex-partners to the policemen who arrested him, the doctors who treated him and the lawyers who fought to prove he was fit to have custody

of his kids. Unflinchingly honest and beautifully written, the result is both a shocking account of the depths of addiction and a fascinating examination of how -- and why -- our memories deceive us. As David says, we remember the stories we can live with, not the ones that happened.

To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, *The Power of Now* is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.

"We Are the Luckiest is a masterpiece. It's the truest, most generous, honest, and helpful sobriety memoir I've read. It's going to save lives." — Glennon Doyle, #1 New York Times bestselling author of *Love Warrior: A Memoir*

What could possibly be "lucky" about addiction? Absolutely nothing, thought Laura McKowen when drinking brought her to her knees. As she puts it, she "kicked and screamed . . . wishing for something — anything — else" to be her issue. The people who got to drink normally, she thought, were so damn lucky. But in the midst of early sobriety, when no longer able to anesthetize her pain and anxiety, she realized that she was actually the lucky one. Lucky to feel her feelings, live honestly, really be with her daughter, change her legacy. She recognized that "those of us who answer the invitation to wake up, whatever our invitation, are really the luckiest of all." Here, in straight-talking chapters filled with personal stories, McKowen addresses issues such as facing facts, the question of AA, and other people's drinking. Without sugarcoating the struggles of sobriety, she relentlessly emphasizes the many blessings of an honest life, one without secrets and debilitating shame.

The #1 New York Times bestselling memoir from Augusten Burroughs, *Running with Scissors*, now a Major Motion Picture! *Running with Scissors* is the true story of a boy whose mother (a poet with delusions of Anne Sexton) gave

him away to be raised by her psychiatrist, a dead-ringer for Santa and a lunatic in the bargain. Suddenly, at age twelve, Augusten Burroughs found himself living in a dilapidated Victorian in perfect squalor. The doctor's bizarre family, a few patients, and a pedophile living in the backyard shed completed the tableau. Here, there were no rules, there was no school. The Christmas tree stayed up until summer, and Valium was eaten like Pez. And when things got dull, there was always the vintage electroshock therapy machine under the stairs.... *Running with Scissors* is at turns foul and harrowing, compelling and maniacally funny. But above all, it chronicles an ordinary boy's survival under the most extraordinary circumstances.

The mesmerizing New York Times bestseller by the author of *Night Film* Marisha Pessl's dazzling debut sparked raves from critics and heralded the arrival of a vibrant new voice in American fiction. At the center of *Special Topics in Calamity Physics* is clever, deadpan Blue van Meer, who has a head full of literary, philosophical, scientific, and cinematic knowledge. But she could use some friends. Upon entering the elite St. Gallway School, she finds some—a clique of eccentrics known as the Bluebloods. One drowning and one hanging later, Blue finds

herself puzzling out a byzantine nonprofit, accredited murder mystery. Nabokov meets Donna Tartt (then invites the rest of the Western Canon to the party) in this novel—with visual aids drawn by the author—that has won over readers of all ages.

"In 1977, the world was ready for something new," writes Savannah College of Art and Design president and founder Paula Wallace. "All around us, dreamers were dreaming up new ideas: Star Wars, The Clash, Apple. I was nearing thirty and ... wondered if I could do more." What happened next would change the face of higher education. An engaging, moving, and inspiring memoir, *The Bee* and the Acorn traces the journey of Wallace and her family to the historic Georgia coastal town of Savannah, where they set about creating a new university for the arts. The tiny college would be a radically different kind of institution, buzzing with progressive ideas about what education could be and what it should do for students. Nearly forty years later, SCAD has become one of the largest and most highly regarded arts universities in the world. Established in 1978, the Savannah College of Art and Design is a private,

university, offering more than 100 academic degree programs in 42 majors at locations in Atlanta and Savannah, Georgia; Hong Kong; Lacoste, France; and online via SCAD eLearning. SCAD enrolls more than 12,000 undergraduate and graduate students from more than 100 countries. The university's innovative curriculum is enhanced by professional-level technology, equipment, and learning resources, as well as opportunities for internships, professional certifications, and collaborative projects with corporate partners. In 2014, the prestigious Red Dot Design Rankings placed SCAD in the top ten universities in the Americas and Europe.

The Book of Joe Regina : Coteau Books

NEW YORK TIMES BESTSELLER "As sweet and funny and sad and true and heartfelt a memoir as one could find." —from the foreword by Augusten Burroughs Ever since he was young, John Robison longed to connect with other people, but by the time he was a teenager, his odd habits—an inclination to blurt out non sequiturs, avoid eye contact, dismantle radios, and dig five-foot holes (and stick his younger brother, Augusten Burroughs, in them)—had earned him the label "social

deviant." It was not until he was forty that he was diagnosed with a form of autism called Asperger's syndrome. That understanding transformed the way he saw himself—and the world. A born storyteller, Robison has written a moving, darkly funny memoir about a life that has taken him from developing exploding guitars for KISS to building a family of his own. It's a strange, sly, indelible account—sometimes alien yet always deeply human.

"As a little boy, I had a dream that my father had taken me to the woods where there was a dead body. He buried it and told me I must never tell. It was the only thing we'd ever done together as father and son, and I promised not to tell. But unlike most dreams, the memory of this one never left me. And sometimes...I wasn't altogether sure about one thing: was it just a dream?" When Augusten Burroughs was small, his father was a shadowy presence in his life: a form on the stairs, a cough from the basement, a silent figure smoking a cigarette in the dark. As Augusten grew older, something sinister within his father began to unfurl. Something dark and secretive that could not be named. Betrayal after shocking betrayal ensued, and Augusten's childhood was over. The kind of father he wanted didn't exist for him. This father was distant, aloof, uninterested... And then the "games" began. With *A Wolf at the Table*, Augusten Burroughs

makes a quantum leap into untapped emotional terrain: the radical pendulum swing between love and hate, the unspeakably terrifying relationship between father and son. Told with scorching honesty and penetrating insight, it is a story for anyone who has ever longed for unconditional love from a parent. Though harrowing and brutal, *A Wolf at the Table* will ultimately leave you buoyed with the profound joy of simply being alive. It's a memoir of stunning psychological cruelty and the redemptive power of hope.

The Indignities of Coach Class, *the Torments of Low Thread Count*, *the Never-Ending Quest for Artisanal Olive Oil*, and *Other First World Problems* David Rakoff's collection of autobiographical essays, *Fraud*, established him as one of our funniest, most insightful writers. In *Don't Get Too Comfortable*, Rakoff journeys into the land of plenty that is contemporary North America. Rarely have greed, vanity, selfishness, and vapidty been so mercilessly and wittily portrayed. Whether contrasting the elegance of one of the last flights of the supersonic Concorde with the good times and chicken wings of *Hooters Air*, portraying the rarified universe of Paris fashion shows where an evening dress can cost as much as four years of college, or traveling to a private island off the coast of Belize to watch a soft-core Playboy TV shoot, where he is provided with his very own personal manservant, David Rakoff takes us on a bitingly funny grand tour of our culture of excess, delving into the manic getting and

spending that defines the North American way of life. Somewhere along the line, our healthy self-regard has exploded into obliterating narcissism, and Rakoff is there to map that frontier. He sits through the grotesqueries of "avant garde" vaudeville in Times Square immediately following 9/11. Twenty days without food allows him to experience firsthand the wonders of "detoxification," and the frozen world of cryonics, whose promise of eternal life is the ultimate status symbol, leaves him very cold indeed (much to our good fortune). At once a Wildean satire of our ridiculous culture of overconsumption and a plea for a little human decency, *Don't Get Too Comfortable* is a bitingly funny grand tour of our special circle of gilded-age hell. *Hot Lights, Cold Steel* St. Martin's Press

"Erica Garza has written a riveting, can't-look-away memoir of a life lived hardcore...In an era when predatory male sexual behavior has finally become a topic of urgent national discourse...Getting Off makes for a wild, timely read" (Elle). A fixation on porn and orgasm, strings of failed relationships and serial hook-ups with strangers, inevitable blackouts to blunt the shame—these are not things we often hear women share publicly, and not with the candor, eloquence, and introspection Erica Garza brings to *Getting Off*. What sets this courageous and

riveting account apart from your typical misery memoir is the absence of any precipitating trauma beyond the garden variety of hurt we've all had to endure in simply becoming a person—reckoning with family, learning to be social, integrating what it means to be sexual. Whatever tenor of violence or abuse Erica's life took on through her behavior was of her own making, fueled by fear, guilt, self-loathing, self-pity, loneliness, and the hopelessness those feelings brought on as she runs from one side of the world to the other in an effort to break her habits—from East Los Angeles to Hawaii and Southeast Asia, through the brothels of Bangkok and the yoga studios of Bali to disappointing stabs at therapy and twelve-steps back home. In these remarkable pages, Garza draws an evocative, studied portrait of the anxiety that fuels her obsessions, as well as the exhilaration and hope she begins to feel when she suspects she might be free of them. *Getting Off* offers a brave and necessary voice to our evolving conversations about addiction and the impact that internet culture has had on us all—"a profoundly genuine, gripping story that any reader can appreciate"

(Vice). "In reading Garza's insight into her own experiences, we better understand ourselves" (The New York Times Book Review).

Fifteen million Americans a year are plagued with alcoholism. Five million of them are women. Many of them, like Caroline Knapp, started in their early teens and began to use alcohol as "liquid armor," a way to protect themselves against the difficult realities of life. In this extraordinarily candid and revealing memoir, Knapp offers important insights not only about alcoholism, but about life itself and how we learn to cope with it. It was love at first sight. The beads of moisture on a chilled bottle. The way the glasses clinked and the conversation flowed. Then it became obsession. The way she hid her bottles behind her lover's refrigerator. The way she slipped from the dinner table to the bathroom, from work to the bar. And then, like so many love stories, it fell apart. Drinking is Caroline Knapp's harrowing chronicle of her twenty-year love affair

with alcohol. Caroline had her first drink at fourteen. She drank through her yeras at an Ivy League college, and through an award-winning career as an editor and columnist. Publicly she was a dutiful daughter, a sophisticated professional. Privately she was drinking herself into oblivion. This startlingly honest memoir lays bare the secrecy, family myths, and destructive relationships that go hand in hand with drinking. And it is, above all, a love story for our times—full of passion and heartbreak, betrayal and desire—a triumph over the pain and deception that mark an alcoholic life. Praise for *Drinking* "Quietly moving . . . Caroline Knapp dazzles us with her heady description of alcohol's allure and its devastating hold."—Los Angeles Times Book Review "Filled with hard-won wisdom . . . [a] perceptive and revealing book."—San Francisco Chronicle "Eloquent . . . a remarkable exercise in self-discovery."—The New York Times "Drinking not only describes triumph; it is one."—Newsweek

If I Were a Book Crown

When Michael Collins decides to become a surgeon, he is totally unprepared for the chaotic life of a resident at a major hospital. A natural overachiever, Collins' success, in college and medical school led to a surgical residency at one of the most respected medical centers in the world, the famed Mayo Clinic. But compared to his fellow residents Collins feels

inadequate and unprepared. All too soon, the euphoria of beginning his career as an orthopedic resident gives way to the feeling he is a counterfeit, an imposter who has infiltrated a society of brilliant surgeons. This story of Collins' four-year surgical residency traces his rise from an eager but clueless first-year resident to accomplished Chief Resident in his final year. With unparalleled humor, he recounts the disparity between people's perceptions of a doctor's glamorous life and the real thing: a succession of run down cars that are towed to the junk yard, long weekends moonlighting at rural hospitals, a family that grows larger every year, and a laughable income. Collins' good nature helps him over some of the rough spots but cannot spare him the harsh reality of a doctor's life. Every day he is confronted with decisions that will change people's lives-or end them-forever. A young boy's leg is mangled by a tractor: risk the boy's life to save his leg, or amputate immediately? A woman diagnosed with bone cancer injures her hip: go through a painful hip operation even though she has only months to live? Like a jolt to the system, he is faced with the reality of suffering and death as he struggles to reconcile his idealism and aspiration to heal with the recognition of his own limitations and imperfections. Unflinching and deeply engaging, *Hot Lights, Cold Steel* is a humane and passionate reminder that doctors are people too. This is a gripping memoir, at times devastating, others triumphant, but always compulsively readable. *The Power of Now* Hachette UK

An extraordinary memoir about the cutting-edge brain therapy that dramatically changed the life and mind of John Elder Robison, the New York Times bestselling author of *Look Me in the Eye* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST Imagine spending the first forty years of your life in darkness, blind to the emotions and social signals of other people. Then imagine that someone suddenly switches the lights on. It has long been assumed that people living with autism are born with the diminished ability to read the emotions of others, even as they feel emotion deeply. But what if we've been wrong all this time? What if that "missing" emotional insight was there all along, locked away and inaccessible in the mind? In 2007 John Elder Robison wrote the international bestseller *Look Me in the Eye*, a memoir about growing up with Asperger's syndrome. Amid the blaze of publicity that followed, he received a unique invitation: Would John like to take part in a study led by one of the world's foremost neuroscientists, who would use an experimental new brain therapy known as TMS, or transcranial magnetic stimulation, in an effort to understand and then address the issues at the heart of autism? *Switched On* is the extraordinary story of what happened next. Having spent forty years as a social outcast, misreading others' emotions or missing them completely, John is suddenly able to sense a powerful range of feelings in other people. However, this newfound insight brings unforeseen problems and serious questions. As the emotional ground shifts beneath his feet, John struggles with the very real

possibility that choosing to diminish his disability might also mean sacrificing his unique gifts and even some of his closest relationships. Switched On is a real-life Flowers for Algernon, a fascinating and intimate window into what it means to be neurologically different, and what happens when the world as you know it is upended overnight. Praise for Switched On "An eye-opening book with a radical message . . . The transformations [Robison] undergoes throughout the book are astonishing—as foreign and overwhelming as if he woke up one morning with the visual range of a bee or the auditory prowess of a bat."—The New York Times "Astonishing, brave . . . reads like a medical thriller and keeps you wondering what will happen next . . . [Robison] takes readers for a ride through the thorny thickets of neuroscience and leaves us wanting more."—The Washington Post "Fascinating for its insights into Asperger's and research, this engrossing record will make readers reexamine their preconceptions about this syndrome and the future of brain manipulation."—Booklist "Like books by Andrew Solomon and Oliver Sacks, Switched On offers an opportunity to consider mental processes through a combination of powerful narrative and informative medical context."—BookPage "A mind-blowing book that will force you to ask deep questions about what is important in life. Would normalizing the brains of those who think differently reduce their motivation for great achievement?"—Temple Grandin, author of The Autistic Brain "At the heart of Switched On are fundamental questions of who we are, of where our identity resides, of difference and disability and free will, which are brought into sharp focus by Robison's lived experience."—Graeme Simsion, author of The Rosie Effect

Look Me in the Eye Bantam
The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look
