Then Claire’s mother, the redoubtable Lady Jermyn, arrives with her family in tow and expects to stay

But the last thing they expect is to have their airship hijacked ... with Claire’s little brother Nicholas still aboard ... Brilliant Devices: A steampunk adventure novel with smart women inventors FaithWords Finalist for the 2016 Man Booker Prize Winner of the 2016 Paris Review Plimpton Prize for Fiction A magnificent and ambitiously conceived portrait of contemporary life, by a genius of realism Nine men. Each of them at a different stage in life, each of them away from home, and each

of them striving--in the suburbs of Prague, in an overdeveloped Alpine village, beside a Belgian motorway, in a dingy Cyprus hotel--to understand what it means to be alive, here and now. Tracing a dramatic arc from the spring of youth to the winter of old age, the ostensibly separate narratives of *All That Man Is* aggregate into a picture of a single shared existence, a picture that interrogates the state of modern manhood while bringing to life, unforgettably, the physical and emotional terrain of an increasingly globalized Europe. And so these nine lives form an ingenious and new kind of novel, in which David Szalay expertly plots a dark predicament for the twenty-first-century man. Dark and disturbing, but also often wickedly and uproariously comic, *All That Man Is* is notable for the acute psychological penetration Szalay brings to bear on his characters, from the working-class ex-grunt to the pompous college student, the middle-aged loser to the Russian oligarch. Steadily and mercilessly, as this brilliantly conceived book progresses, the protagonist at the center of each chapter is older than the last one, it gets colder out, and *All That Man Is* gathers exquisite power.

Szalay is a writer of supreme gifts--a master of a new kind of realism that vibrates with detail, intelligence, relevance, and devastating pathos.

Every seventeen years, the House of Witches throws a party like no other. It's invitation-only, and for centuries it has helped ensure peace between the covens. It's the last place Caspian wants to be, but with the death of Queen Avel, and his own imminent rise to the throne, it's more important than ever that he attends. The stability of the House depends on it. In four days a new king will be crowned, but when

Charlie unintentionally crashes a gathering of the most secretive of all the Great Houses, he sets in motion a series of events that could disrupt the transition of power, and threaten the future of the House of Witches forever.

As an American author who chose to live in Europe, Henry James frequently wrote about cultural differences between the Old and New World. The plight of bewildered Americans adrift on a sea of European sophistication became a regular theme in his fiction. This collection of twenty-four papers from some of the world's leading James scholars offers a comprehensive picture of the author's cross-cultural aesthetics. It provides detailed analyses of James's perception of Europe - of its people and places, its history and culture, its

artists and thinkers, its aesthetics and its ethics - which ultimately lead to a profound reevaluation of his writing. With in-depth analysis of his works of fiction, his autobiographical and personal writings, and his critical works, the collection is a major contribution to current thinking about James, transtextuality and cultural appropriation.

While Lord Maccon elects to get progressively more inebriated and Professor Lyall desperately tries to hold the Woolsey werewolf pack together, Alexia flees England for Italy in search of the mysterious Templars. Only they know enough about the preternatural to explain her increasingly inconvenient

A “fast, fun” cozy mystery series “full of Sherlockian lore”—set at a Cape Cod bookshop run by a “charming, intelligent heroine as observant as the Great Detective himself” (Carolyn Hart, New York Times—bestselling author) When murder pays a visit to Sherlock Holmes Bookshop and Emporium, Gemma Doyle must use the powers of deduction to find the killer—and clear her own name. Gemma Doyle, a transplanted Englishwoman, has returned to the quaint town of West London on Cape Cod to manage her Great Uncle Arthur’s Sherlock Holmes Bookshop and Emporium.
