This book is significant for its concept of "openness"--the artist's decision to leave arrangements of some constituents of a work to the public or

to chance--and for its anticipation of two themes of literary theory: the element of multiplicity and plurality in art, and the insistence on literary response as an interaction between reader and text.

The Periodic Table is largely a memoir of the years before and after Primo Levi ' s transportation from his native Italy to Auschwitz as an anti-Facist partisan and a Jew. It recounts, in clear, precise, unflinching beautiful prose, the story of the Piedmontese Jewish community from which Levi came, of his years as a student and young chemist at the inception of the Second World War, and of his investigations into the nature of the material world. As such, it provides crucial links and backgrounds, both personal and intellectual, in the tremendous project of remembrance that is Levi ' s gift to posterity. But far from being a prologue to his experience of the Holocaust,

Levi ' s masterpiece represents his most impassioned response to the events that engulfed him. The Periodic Table celebrates the pleasures of love and friendship and the search for meaning, and stands as a monument to those things in us that are capable of resisting and enduring in the face of tyranny.

The 2011 WDR on Conflict, Security and Development underlines the devastating impact of persistent conflict on a country or region's development prospects - noting that the 1.5 billion people living in conflict-affected areas are twice as likely to be in poverty. Its goal is to contribute concrete, practical suggestions on conflict and fragility.

**A Textbook of
Neuroanatomy** World
Health Organization

In his most extraordinary

book, the bestselling author of *Awakenings* and "poet laureate of medicine" (The New York Times) recounts the case histories of patients inhabiting the compelling world of neurological disorders, from those who are no longer able to recognize common objects to those who gain extraordinary new skills. Featuring a new preface, *Oliver Sacks's The Man Who Mistook His Wife for a Hat* tells the stories of individuals afflicted with perceptual and intellectual disorders: patients who have lost their memories and with them the greater part of their pasts; who are no longer able to recognize people and common objects; whose limbs seem alien to them; who lack some skills yet are gifted with uncanny artistic or mathematical talents. In *Dr. Sacks's* splendid and

sympathetic telling, his patients are deeply human and his tales are studies of struggles against incredible adversity. A great healer, Sacks never loses sight of medicine's ultimate responsibility: "the suffering, afflicted, fighting human subject."

According to the National Headache Foundation, over 45 million Americans suffer from chronic, recurring headaches (28 million from migraine alone). Headache is the most common complaint for which people see neurologists. Headache can impede job functioning and undermine one's quality of life if not managed effectively. Despite this, research that would help in the care and management of headache patients is sadly lacking. The *Jefferson Headache Manual* is a practical guide for the practitioner seeking assistance in diagnosing and treating headache patients. Written by

the experts at one of the foremost headache centers in the United States, the Manual provides a systematic approach to identifying and managing all types of headaches. Migraine, chronic daily and tension headache, cluster headache, post-lumbar puncture and high and low pressure headaches, medication overuse, and unusual primary headaches are all covered. In addition, this handy reference includes chapters on post-traumatic headache, associated comorbid disorders, headache in the emergency department, and regional considerations in the neck, nose and sinuses, and contains up-to-date information on the latest prescription drug treatments, infusion and inpatient therapies, botulinum toxin, and behavioral management. Based upon the Jefferson philosophy and unique experience of the authors, this comprehensive yet concise manual will appeal to anyone who strives to practice state of the art headache medicine. Features of the Jefferson Headache Manual include Practical, problem-

Security John Wiley & Sons #1 NEW YORK TIMES BESTSELLER • The incredible true story of survival and salvation that is the basis for two major motion pictures: 2014 's Unbroken and the upcoming Unbroken: Path to Redemption. On a May

afternoon in 1943, an Army Air Forces bomber crashed into the Pacific Ocean and disappeared, leaving only a spray of debris and a slick of oil, gasoline, and blood.

Then, on the ocean surface, a face appeared. It was that of a young lieutenant, the plane ' s bombardier, who was struggling to a life raft and pulling himself aboard. So began one of the most extraordinary odysseys of the Second World War. The lieutenant ' s name was Louis Zamperini. In boyhood, he ' d been a cunning and incorrigible delinquent, breaking into houses, brawling, and fleeing his home to ride the rails. As a teenager, he had channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics and within sight of

the four-minute mile. But when war had come, the athlete had become an airman, embarking on a journey that led to his doomed flight, a tiny raft, and a drift into the unknown. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, a foundering raft, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. In her long-awaited new book, Laura Hillenbrand writes with the same rich and vivid narrative voice she displayed in *Seabiscuit*. Telling an

unforgettable story of a man's journey into extremity, *Unbroken* is a testament to the resilience of the human mind, body, and spirit. Praise for *Unbroken* "Extraordinarily moving . . . a powerfully drawn survival epic." —*The Wall Street Journal* "[A] one-in-a-billion story . . . designed to wrench from self-respecting critics all the blurbly adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring." —*New York Times* "Staggering . . . mesmerizing . . . Hillenbrand's writing is so ferociously cinematic, the events she describes so incredible, you don't dare take your eyes off the page." —*People* "A meticulous, soaring and beautifully written account

of an extraordinary life. ” —The Washington Post “ Ambitious and powerful . . . a startling narrative and an inspirational book. ” —The New York Times Book Review “ Marvelous . . . Unbroken is wonderful twice over, for the tale it tells and for the way it ’ s told. . . . It manages maximum velocity with no loss of subtlety. ” —Newsweek “ Moving and, yes, inspirational . . . [Laura] Hillenbrand ’ s unforgettable book . . . deserve[s] pride of place alongside the best works of literature that chart the complications and the hard-won triumphs of so-called ordinary Americans and their extraordinary time. ” —Maureen Corrigan, Fresh Air “ Hillenbrand . . . tells [this]

story with cool elegance but at a thrilling sprinter ’ s pace. ” —Time “ Unbroken is too much book to hope for: a hellride of a story in the grip of the one writer who can handle it. ” —Christopher McDougall, author of Born to Run The Glass Castle John Wiley & Sons

By 2021, the Terminus War had driven mankind off-planet and entire species into extinction. Now only the rich can afford living creatures; others may buy amazingly realistic simulacrae: horses, cats, sheep ... Even humans. These artificial people are so advanced it's impossible to tell them from true men and women--except for their lack of empathy. Without empathy, androids can--and do--kill their owners and blend into society, so they're illegal on

Earth. It's Rick Deckard's job to find these rogues and "retire" them. But "andys" tend to fight back--with deadly results.

Security Science integrates the multi-disciplined practice areas of security into a single structured body of knowledge, where each chapter takes an evidence-based approach to one of the core knowledge categories. The authors give practitioners and students the underlying scientific perspective based on robust underlying theories, principles, models or frameworks. Demonstrating the relationships and underlying concepts, they present an approach to each core security function within the context of both organizational security and homeland security. The book is unique in its application of the scientific method to the increasingly challenging tasks of preventing crime and foiling terrorist attacks.

Incorporating the latest security theories and principles, it considers security from both a national and corporate perspective, applied at a strategic and tactical level. It provides a rational basis for complex decisions and begins the process of defining the emerging discipline of security science. A fresh and provocative approach to the key facets of security

A New York Times bestseller 'A sensation ... a rollicking tale well told' - *The Times* At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while

asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.
