Spotlight Science 2 Concept Publishing Company
With more than 80 fun experiments, SUPER Science Experiments: Build It is the ultimate lab book for kids who want to build cool stuff! This fact- and fun-filled book includes tons of simple, kid-tested science experiments, many of which can be done with items from around the house, and require little-to-no supervision! That's right--no adult help needed. That means no grownups doing all the fun stuff while you watch. You can do lots of messy, cool, mind-blowing experiments all by yourself! All the supplies you need are probably already in your home. No fancy gadgets or doohickeys needed! Whether you want to build your own catapult, lava lamp, rocket, or even a light bulb, this book has something for everyone. Each experiment features safety precautions, materials needed, step-by-step instructions with illustrations, fun facts, and further explorations. With SUPER Science Experiments: Build It, kid scientists like you can: Make a chair with newspapers Erupt a ketchup volcano Send a rocket into the air with the stomp of your foot See which direction you're facing with a homemade compass Race little cars made from toilet paper tubes Build an electromagnetic motor And complete many other SUPER science experiments! At once engaging, encouraging, and inspiring, the SUPER Science Experiments series provides budding scientists with go-to, hands-on guides for learning the fundamentals of science and exploring the fascinating world around them. Also in this series, check out: Cool Creations, At Home, and Outdoor Fun. There's no better boredom-buster than a science experiment. You will learn something and astound and amaze your friends and family. So, what are you waiting for? Get experimenting!

Encourages children to experiment with art techniques and styles, discussing painting, collage and paper, drawing, craft and construction, and clay and dough projects.

Build Rockets and Racers and Test Energy and Forces!

McFarland

For toddlers, every storytime can be a new adventure, while art

activities are important for developing impulse control, hand-eye coordination, and fine motor dexterity in the hands. Hopkins' new book fuses them together. Designed for children ages 1 to 3 years old, the book's 52 storytimes promote pre-reading skills such as print motivation, vocabulary, and narrative skills. Based on themes familiar to children, including bears, bugs, springtime, clothing and hats, flowers and gardens, weather, music, pets, transportation, pirates, and many more, each storytime includes a list of books, action songs or rhymes along with their words, a flannelboard experience, plus instruction for two to three art activities. This complete toddler storytime resource also includes An introduction which discusses the differences between art activities and craft activities, a toddler's ability in creating art, and why children this age should be exposed to art activities Advice for using different art mediums, such as food, plus important safety considerations Pointers on conducting playful yet educational storytimes Tips for finding inexpensive art materials, with a list of recommended supplies to keep on hand More than 100 drawings, all easy to reproduce and modify Weblinks to "Artsy Helper Sheets," downloadable supplements complete with phrases, tips, and tricks that inform parents and caregivers about the benefits of doing art activities with toddlers Pick up Hopkins' book and you'll be ready to conduct a storytime within moments!
