With a classification system that has every parenting style down to a 't', The Perfect Parents Handbook is unputdownable reading for anyone who's ever forked over major three figures for the "must have" stroller or agonized over what their children's school says about them as parents. The real facts and details in this book gently skewer modern mothers and fathers and will at the same time delight them with dead-on accuracy in describing the habits and accouterments of nine types, including: --The Neo-Trad: Dad makes the cupcakes and kids' artwork is everywhere (not just on the fridge); the family's taste always exceeds its wallet --The Martyr Parents: They've sacrificed so much for the kids that the kids have taken over the asylum --The Power Parents: The IV sessions that led to triplets were coordinated on mom and dad's Blackberries and the real British nanny swabs

the babies' Burberry button-downs on the way to their five bedroom Park Avenue apartment --The Classic Parents: Everybody's in LL Bean and their 2.3 children all climb into a little red wagon to get to the SUV Laced with titillating facts about our child-centric culture (unique baby announcements! nursery decorators! mandatory volunteering at preschool!), The Perfect Parents Handbook decodes the complex and terrifying (smothering doulas! educational vacations to the rainforest!) world of raising kids.,

Story time at the public library is the first exposure to books outside the home for many preschool children. For the

librarian, it is an exciting opportunity to instill in youngsters a love of reading and books. But coming up with new ideas that hold the children's attention can be trying. Until now. Here are 55 tried-and-true story hour programs with a thematic approach. All are highly flexible and adaptable across the full preschool age range. Most of the ideas are arranged under one of eight specific themes that include four to eight one-hour programs: barnyard animals, the Caldecott Medal, colors, families, a storytelling feast, the five senses, reptiles and amphibians, and around the world. There are also 18 individual holiday and seasonal programs. All story hours provide ideas for name tags, suggested audiovisual materials, recommended story, poetry and song selections, additional titles and a full description of the activity.

Canals and Dams: Investigate Feats of Engineering invites children ages 9 and up to explore the innovation and physical science behind the amazing waterways and barriers our world depends on. Trivia and fun facts illustrate engineering ingenuity and achievements from ancient aqueducts to the Suez Canal and the Hoover Dam. Readers will discover that engineers and builders alike put their lives on the line to advance civilization, experiencing triumphs and tragedies in building big. Through dazzling success and heartbreaking failure, they developed increasingly sophisticated tools and building methods. Activities and projects encourage children to explore the engineering process and to try, try again through trial and error. They'll engage in hands-on explorations of buoyancy, Newton's third law of motion, and forces that push and pull structures. They'll create a

paper-cup zip line, build an arch, and simulate a tsunami, while experimenting with gravity, hydroponics, and velocity. In Canals and Dams: Investigate Feats of Engineering, children will gain an appreciation for the important field of engineering as they develop their own building skills.

Explore Native American Cultures! with 25 Great Projects introduces readers to seven main Native American cultural regions, from the northeast woodlands to the Northwest tribes. It encourages readers to investigate the daily activities—including the rituals, beliefs, and longstanding traditions—of America's First People. Where did they live? How did they learn to survive and build thriving communities? This book

also investigates the negative impact European explorers and settlers had on Native Americans, giving readers a glimpse into the complicated history of Native Americans. Readers will enjoy the fascinating stories about America's First People as leaders, inventors, diplomats, and artists. To enrich the historical information, hands-on activities bring to life each region's traditions, including region-specific festivals, technology, and art. Readers can learn Native American sign language and create a salt dough map of the Native American regions. Each project is outlined with clear step-by-step instructions and diagrams, and requires minimal adult supervision.
