Finally...a fun, easy-to-use guide to potty training any child in just ONE DAY Just think, from the time babies are born until they are toilet trained, they use an average of 4,000 diapers! Potty Train Your Child in Just One Day is the helpful guide you've been waiting for to get your child out of diapers and turn the potentially terrifying process of toilet training into an effective and enjoyable bonding experience with your child. Teri guides parents to the successful one-day potty training of their child by teaching them how to: • Look for the signs that your child is ready to be potty trained • Make the potty connection by using a potty-training doll • Create incentive through consistent positive reinforcement • Use charts, quizzes, and checklists to help with every step of potty training • Know when it's time to bring in a potty pinch hitter • Complete your potty training -- no more accidents Once Teri teaches you her techniques, she shares her secret -- potty parties! She has carefully designed twelve imaginative themes for parties, such as a seriously silly circus, a cartoon character carnival, or a magic carpet express, and supplies parents with everything they will need. Teri has proven that a potty party day engages a child in potty training in a way that no other method has before -- by speaking a toddler's language. A party may translate to fun, games, cake, candy, presents, and prizes to a child, but with Teri's expertise, parents can use it as a tool to motivate their child to want to go to the bathroom -- and to keep on going. That's why it works in just one day!

Story time at the public library is the first exposure to books outside the home for many preschool children. For the librarian, it is an exciting opportunity to instill in youngsters a love of reading and books. But coming up with new ideas that hold the children’s attention can be trying. Until now. Here are 55 tried-and-true story hour programs with a thematic approach. All are highly flexible and adaptable across the full preschool age range. Most of the ideas are arranged under one of eight specific themes that include four to eight one-hour programs: barnyard animals, the Caldecott Medal, colors, families, a storytelling feast, the five senses, reptiles and amphibians, and around the world. There are also 18 individual holiday and seasonal programs. All story hours provide ideas for name tags, suggested audiovisual materials,

recommended story, poetry and song selections, additional titles and a full description of the activity.

Explore Native American Cultures! with 25 Great Projects introduces readers to seven main Native American cultural regions, from the northeast woodlands to the Northwest tribes. It encourages readers to investigate the daily activities—including the rituals, beliefs, and longstanding traditions—of America’s First People. Where did they live? How did they learn to survive and build thriving communities? This book also investigates the negative impact European explorers and settlers had on Native Americans, giving readers a glimpse into the complicated history of Native Americans. Readers will enjoy the fascinating stories about America’s First People as leaders, inventors, diplomats, and artists. To enrich the historical information, hands-on activities bring to life each region’s traditions, including region-specific festivals, technology, and art. Readers can learn Native American sign language and create a salt dough map of the Native American regions. Each project is outlined with clear step-by-step instructions and diagrams, and requires minimal adult supervision.

Canals and Dams: Investigate Feats of Engineering invites children ages 9 and up to explore the innovation and physical science behind the amazing waterways and barriers our world depends on. Trivia and fun facts illustrate engineering ingenuity and achievements from ancient aqueducts to the Suez Canal and the Hoover Dam. Readers will discover that engineers and builders alike put their lives on the line to advance civilization, experiencing triumphs and tragedies in building big. Through dazzling success and heartbreaking failure, they developed increasingly sophisticated tools and building methods. Activities and projects encourage children to explore the engineering process and to try, try again through trial and error. They'll engage in hands-on explorations of buoyancy, Newton’s third law of motion, and forces that push and pull structures. They’ll create a paper-cup zip line, build an arch, and simulate a tsunami, while experimenting with gravity, hydroponics, and velocity. In Canals and Dams: Investigate Feats of Engineering, children will gain an appreciation for the important field of engineering as they develop their own building skills.

Cowboy Strong CALYX Books

Going Down Fighting Ty Covington likes to keep things as uncomplicated as possible. By day, all that matters to him is his horse and winning in the rodeo ring. At night, all he wants is a deliciously hot, no-strings affair with his rival, Kenzie Malone. Then everything changes in one heart-stopping split second. The accident should have killed both Ty and his horse. Instead, they're both on the road to a hard recovery—but only thanks to Kenzie's family connections and fortune. Which means he owes her. He owes a woman who is both everything he despises and his deepest desire. As need—hungry and demanding—takes them both over, Ty knows that this time, uncomplicated isn't an option. And this cowboy always pays his debts...
