"Sell Your Own Damn Movie!" covers everything you need to do to get your finished film seen by festival-goers, movie-goers, DVD-buyers and web-goers around the world. You will be lead through a primer on the history of film distribution to a discussion of the many ways you can get your film out there, either through a reputable distributor or all on your own. From the realities of distribution, to utilizing the

internet to self-distribution, Mr. Kaufman tells you in his habitually lucid and off-the-wall way. Inserts include interviews and pointers from veteran distribution pros as well as directors and producers who share their own front-line stories. Mr. Kaufman recounts his own raucous stories of marketing pleasures and nightmares from 35 years of movie-making experience, creating a uniquely useful and entertaining read. Or, in Lloyd's inimitable words. The most asked question at my worldwide popular, legendary, renowned master class is, "How do I get my no-budget, zombie giraffe flick distributed?" Well, have no fear, because the 3rd volume in Uncle Lloydie's how-to series of go-to guides for filmmakers reveals the secrets, methods and tricks (short of prostituting yourself and selling bodily organs) to getting your film distributed.

The sewer that is mainstream distribution as I drag you through the muck, be-farting upon you the real scoop behind "indie" and mainstream distribution deals. -MASTICATE! (No, not that kind of masticating) On the knowledge of DVD

distribution as I es-chew the fat and get to the skinny of Do-It-Yourself DVD distribution. I will teach you the fundamentals of having a good website (like www.Troma.com) to boost your sales! -FEAST! On my golden brown chicken puns as I cleverly cluck your brain out with the irrefutable knowledge of how I sold over 10,000 units of the 3-disc limited-edition Poultrygeist DVD in a matter of months! YES! If you have any doubt that I will not be able to turn your no-budget zombie giraffe opus into box-office gold, then put down this book proposal! No wait, pick it back up, pick it back up! A prophecy brings common sense to the confusion of modern life, responding to its challenges in local and international conflict resolution, through remembering life's composition of widely divergent yet related parts. An alternative view of life's complexities, this novel is a modern-day take on an ancient way of seeing, placing the reader as the central character in a set of real-life circumstances, and confronting them wherever they find themselves. In many ways, the book is an initiation, taking you on a fascinating journey while deepening your comprehension of who and what you are and your place in the scheme of things. Disoriented and dissatisfied by the trite answers provided by compromised teachers and politicians alike, and perhaps lacking the experience and wisdom to judiciously negotiate life in the confusion of a world of apparent plenty,

most people find themselves struggling to find representatives whose wise application of intelligence is the currency of their decision making. Where a balance of feeling and intuition equally weighted by logic and reason is absent, humanity is forced to conclude that society's rulers, whether financial or political, have abandoned representing life's common destiny as the foundation stone of humankind's finest aspirations. When morality is applied differently in different settings to gain advantage and cultures have a variety of spiritual and existential beliefs pitted one against the other, the step to terrorism, though seemingly incomprehensible, appears understandable to a mind pushed to its extremes, as it attempts to reconcile that which is apparently irreconcilable. Without prizing humanity as an interwoven part of nature's fabric, people are caught between a rock and hard place, but it is precisely there that *Platypus Dreaming* inspires hope.

This book examines the meaning and implications of the sociological maxim, 'make the familiar strange'. Addressing the methodological questions of why and how sociologists should make the familiar strange, what it means to 'make the familiar strange', and how this approach benefits sociological research and theory, it draws on four central

concepts: reification, familiarity, strangeness, and defamiliarization. Through a typology of the notoriously ambiguous concept of reification, the author argues that the primary barrier to sociological knowledge is our experience of the social world as fixed and unchangeable. Thus emerges the importance of constituting the familiar as the strange through a process of social defamiliarization as well as making this process more methodical by reflecting on heuristics and patterns of thinking that render society strange. The first concerted effort to examine an important feature of the sociological imagination, this volume will appeal to sociologists of any specialty and theoretical persuasion.

How do we know a cat is a cat . . . and why do we call it a

cat? An "intriguing and often fascinating" look at words, perceptions, and the relationship between them (Newark Star-Ledger). In Kant and the Platypus, the renowned semiotician, philosopher, and bestselling author of The Name of the Rose and Foucault's Pendulum explores the question of how much of our perception of things is based on cognitive ability, and how much on linguistic resources. In six remarkable essays, Umberto Eco explores in depth questions of reality, perception, and experience. Basing his ideas on common sense, Eco shares a vast wealth of literary and historical knowledge, touching on issues that affect us every day. At once philosophical and amusing, Kant and the Platypus is a tour of the world of our senses, told by a master of knowing what is real and what is not. "An erudite, detailed inquiry into the philosophy of mind . . . Here,

Eco is continental philosopher, semiotician, and cognitive scientist rolled all into one." -Library Journal (starred review)

Kant and the Platypus Routledge At once an old-fashioned-buddy-novel-shoot-'em-up and a work of deliciously imagined fantasy, Howard L. Anderson's dazzling debut presents the haunting story of a world where something has gone horribly awry . . . Having escaped from Australia's Adelaide Zoo, an orphaned platypus named Albert embarks on a journey through the outback in search of "Old Australia," a rumored land of liberty, promise, and peace. What he will find there, however, away from the safe confinement of his enclosure for the first time since his earliest memories,

proves to be a good deal more than he anticipated. Alone in the outback, with an empty soft drink bottle as his sole possession, Albert stumbles upon pyromaniacal wombat Jack, and together they spend a night drinking and gambling in Ponsby Station, a rough-and-tumble mining town. Accused of burning down the local mercantile, the duo flees into menacing dingo territory and quickly go their separate ways—Albert to pursue his destiny in the wastelands, Jack to reconcile his past. Encountering a motley assortment of characters along the way—a pair of invariably drunk bandicoots, a militia of kangaroos, hordes of the mercurial dingoes, and a former prize-fighting Tasmanian devil—our unlikely hero will discover a strength and skill for survival he never suspected he possessed. Told with equal parts wit and compassion, ALBERT OF ADELAIDE shows how it

is often the unexpected route, and the most improbable companions, that lead us on the path to who we really are. Who you journey with, after all, is far more important than wherever it is you are going.

Making the Familiar Strange Harvard University Press
In the final book in the Infected trilogy, the entire human race balances on the razor's edge of annihilation, beset by an enemy that turns our own bodies against us, that changes normal people into psychopaths or transforms them into nightmares. To some, Doctor Margaret Montoya is a hero—a brilliant scientist who saved the human race from an alien intelligence determined to exterminate all of humanity. To others, she's a monster—a mass murderer single-handedly responsible for the worst atrocity ever to take place on American soil. All Margaret knows is that she's broken. The blood of a million deaths is on her hands. Guilt and nightmares have turned

her into a shut-in, too mired in self-hatred even to salvage her marriage, let alone be the warrior she once was. But she is about to be called into action again. Because before the murderous intelligence was destroyed, it launched one last payload: a soda can-sized container filled with deadly microorganisms that make humans feed upon their own kind. That harmless-looking container has languished a thousand feet below the surface of Lake Michigan, undisturbed and impotent . . . until now. Part Cthulhu epic, part zombie apocalypse and part blockbuster alien-invasion tale, *Pandemic* completes the Infected trilogy and sets a new high-water mark in the world of horror fiction.

From the duo behind the massively successful and award-winning podcast *Stuff You Should Know* comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast *Stuff You Should*

Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making *Stuff You Should Know* one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new

array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with *Stuff You Should Know*. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers). *The Swiss Family Robinson, Or, The*

Adventures of a Shipwrecked Family on a Desolate Island Knopf The second volume of Sondheim's collected lyrics is both a remarkable glimpse into the brilliant mind of a legend, and a continuation of the acclaimed and best-selling *Finishing the Hat*. Picking up where he left off in *Finishing the Hat*, Sondheim gives us all the lyrics, along with excluded songs and early drafts, of the Pulitzer Prize-winning *Sunday in the Park with George*, *Into the Woods*, *Assassins and Passion*. Here, too, is an in-depth look at the evolution of *Wise Guys*, which subsequently was transformed into *Bounce* and eventually became *Road Show*. Sondheim takes us through his contributions to both television and film, some of which may surprise you, and covers plenty of never-before-seen material from unproduced projects as well. There are abundant anecdotes about his many collaborations, and readers are treated to rare personal material in this volume, as Sondheim includes

songs culled from commissions, parodies and personal special occasions—such as a hilarious song for Leonard Bernstein's seventieth birthday. As he did in the previous volume, Sondheim richly annotates his lyrics with invaluable advice on songwriting, discussions of theater history and the state of the industry today, and exacting dissections of his work, both the successes and the failures. Filled with even more behind-the-scenes photographs and illustrations from Sondheim's original manuscripts, *Look, I Made a Hat* is fascinating, devourable and essential reading for any fan of the theater or this great man's work.

Seeing Differently offers a history and theory of ideas about identity in relation to visual arts discourses and practices in Euro-American culture, from early modern beliefs that art is an expression of an individual, the painted image a "world picture" expressing a

comprehensive and coherent point of view, to the rise of identity politics after WWII in the art world and beyond. The book is both a history of these ideas (for example, tracing the dominance of a binary model of self and other from Hegel through classic 1970s identity politics) and a political response to the common claim in art and popular political discourse that we are "beyond" or "post-" identity. In challenging this latter claim, *Seeing Differently* critically examines how and why we "identify" works of art with an expressive subjectivity, noting the impossibility of claiming we are "post-nature, determined at birth or in a distant evolutionary past?" What should we conserve—species, ecosystems, or who the subject "is," and offers a new theory of how to think this kind of identification in a more thoughtful and self-reflexive way. Ultimately, *Seeing*

Differently offers a mode of thinking identification as a "queer feminist durational" process that can never be fully resolved but must be accounted for in thinking about art and visual culture. Queer feminist durationality is a mode of relational interpretation that affects both "art" and "interpreter," potentially making us more aware of how we evaluate and give value to art and other kinds of visual culture.

Big book of themes - Book 4 Unofficial Guides

Is the history of life a series of accidents or a drama scripted by selfish genes? Is there an "essential" human nature, determined at birth or in a distant evolutionary past? What should we conserve—species, ecosystems, or something else? Informed answers to questions like these, critical to our understanding of ourselves and the world around us, require both a

knowledge of biology and a philosophical framework within which to make sense of its findings. In this accessible introduction to philosophy of biology, Kim Sterelny and Paul E. Griffiths present both the science and the philosophical context necessary for a critical understanding of the most exciting debates shaping biology today. The authors, both of whom have published extensively in this field, describe the range of competing views—including their own—on these fascinating topics. With its clear explanations of both biological and philosophical concepts, *Sex and Death* will appeal not only to undergraduates, but also to the many general readers eager to think critically about the science of life.
