young people across
Europe to actively

from the Council of

Europe's core values of human rights, democracy and the rule of law, notably by strengthening young people's access to rights, deepening youth knowledge and broadening youth participation. The activities of the European Youth Centres of Budapest and Strasbourg play a central role in the education and training of young 'multipliers' of Council of Europe values. The core of these activities is the programme of study sessions, week-long intercultural non-formal learning activities that are held in cooperation with European youth organisations and networks. These activities bring to the Youth for Democracy programme of the Council of Europe the

unique experiences, expectations and concerns of young people regarding contemporary issues and challenges that affect their access to rights and of participating in all spheres of society. The study sessions of the European Youth Centres have been trendsetters in European youth work and remain a benchmark for intercultural youth activities. This manual is published to support the quality of study sessions and other educational activities in the Youth for Democracy programme. Preparing facilitators and developing their competences is one of the essential prerequisites for enabling exchanges of views and dialogical

learning, preparing the participants to act as multipliers in their day-to-day lives, and ultimately contributing to the values and priorities of the Council of Europe and its youth sector. This Manual for Facilitators provides essential information, insights and practical tips in the planning and delivering of non-formal education intercultural activities while taking into account essential approaches of intercultural learning, human rights education and youth participation. This manual is a contribution to the quality of intercultural non-formal education activities of youth organisations and at making those activities a truly

Makeup Manual**

Pitchstone Publishing (US&CA)
For thousands of years, the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another.

Indeed, the faithful often view converting others as an obligation of their faith—and are trained from an early age to spread their unique brand of religion. The result is a world broken in large part by unquestioned faith. As an urgently needed counter to this tried-and-true tradition of religious evangelism, *A Manual for Creating*

Atheists offers the first-ever guide not for talking people into faith—but for talking them out of it. Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality, cast doubt on their

religious beliefs, mistrust their faith, abandon superstition and irrationality, and ultimately embrace reason. Home Sausage Making, 4th Edition "O'Reilly Media, Inc." "Covers GNU Make basics through advanced topics, including: user-defined functions, macros, and path handling; creating makefile assertions and debugging makefiles; par

allelization; automatic dependency generation, rebuilding targets, and non-recursive Make; and using the GNU Make Standard Library"-- The Bra-makers Manual Macmillan This is the book that Bobbi Brown's fans have been waiting for: her 25-plus years of makeup styling experience distilled into one complete,

gorgeous book. Bobbi looks at everything from skincare basics to every aspect of facial makeup--from how to find the right color and type of foundation for any skin tone to how to apply every detail of eye makeup (Brows, Eye Liner, Eye Shadow, and Eye Lashes) no matter your eye color and

shape. Of course there are never-before-seen tips on blush, bronzer, lip liners, lipstick, etc. And Bobbi looks beyond the face with informative chapters on "Hands and Feet" and "Body Skin Care." Each chapter has thorough step-by-step basic directions for makeup application and easy-to-follow photographs and line drawings, along with Bobbi's expert, yet assuring, advice. Plus, there's a groundbreaking section of the book that will be of special interest to women who've wanted to know how makeup stylists do what they do: the top beauty secrets only these artists know, essential equipment to keep on hand, how to break into the business, and how to work with photographers and celebrities. Breathtaking photos of the finished faces-from everyday looks to exotic runway style-along with advice on putting it all together for every woman, make this a book like no

other. Bobbi Brown's Makeup Manual will be the only book any woman will need to look absolutely fabulous.
