A murder mystery featuring Lord Edward Corinth and Verity Browne. October 1936. Joe Weaver, press magnate and close friend of the Royal family, calls for Lord Edward Corinth's help in recovering some missing letters, stolen from Wallis Simpson - the King's intimate friend. But there is no mystery about who has taken the correspondence: it is known to be Mrs Harkness, Edward's close friend and His Majesty's former favourite. As what seemed a simple stolen property case is complicated by murder, Verity Browne joins Edward in the investigation at Haling, the country home of Conservative MP Leo Scannon where Mrs Harkness is a guest. Very soon, the pair become involved with political protest at home and the fight against Fascism abroad, and against this background of social unrest that they set off to find out the truth behind the Hollow Crown... Alexander Berkman was a twentieth-century American revolutionary. Like the abolitionist John Brown before him, Berkman was hugely idealistic, ready to go to

the furthest extreme of self-sacrifice and violence on behalf of justice and civil rights. He decided to assassinate industrialist Henry Clay Frick after reading in the newspaper that Pinkertons hired by Frick had opened fire on the Homestead strikers, killing men, women, and children. Berkman's bungled attempt cost him fifteen years in a federal penitentiary. Upon his release, he became an effective agitator against conscription and was

eventually deported to Russia, where he saw at first hand the early days of Bolshevism. Berkman's writings remain a lasting and impassioned record of intense political transformation. Featuring a new introduction by Howard Zinn, *Life of an Anarchist* contains *Prison Memoirs of an Anarchist*, Berkman's account of his years in prison; *The Bolshevik Myth*, his eyewitness account of the early days of the Russian

Revolution; and *The ABC of Anarchism*, the classic text on the nature of anarchism in the twentieth century. Also included are a selection of letters between Berkman and his lifelong companion Emma Goldman, and a generous sampling from Berkman's other publications.

Was there such a thing as a modern notion of race in the English Renaissance, and, if so, was skin color its necessary marker? In fact,

early modern texts described human beings of various national origins—including English—as turning white, brown, tawny, black, green, or red for any number of reasons, from the effects of the sun's rays or imbalance of the bodily humors to sexual desire or the application of makeup. It is in this cultural environment that the seventeenth-century London Gazette used the term "black" to describe both dark-skinned African runaways and dark-haired Britons, such as Scots, who are now unquestioningly conceived of as "white." In *Shades of Difference*, Sujata Iyengar explores the cultural mythologies of skin color in a period during which colonial expansion and the slave trade introduced Britons to more dark-skinned persons than at any other time in their history. Looking to texts as divergent as sixteenth-century Elizabethan erotic verse, seventeenth-century lyrics, and Restoration prose romances, Iyengar considers the construction of race during the early modern period without oversimplifying the emergence of race as a color-coded classification or a black/white opposition. Rather, "race," embodiment, and skin color are examined in their multiple contexts—historical, geographical, and literary. Iyengar engages works that have not previously been incorporated into discussions of the formation of race, such as Marlowe's "Hero and Leander" and Shakespeare's "Venus and Adonis." By rethinking the emerging early modern connections between the notions of race, skin color,

and gender, *Shades of Difference* furthers an ongoing discussion with originality and impeccable scholarship.

"The question of souls is old; we demand our bodies, now." These words are not from a feminist manifesto of the late twentieth century, but from a fiery speech given a hundred years earlier by Voltairine de Cleyre, a leading anarchist and radical thinker. A contemporary of Emma Goldman---who called her "the most gifted and brilliant anarchist woman America

ever produced"---de Cleyre was a significant force in a major social movement that sought to transform American society and culture at its root. But she belongs to a group of late-nineteenth-century freethinkers, anarchists, and sex-radicals whose writing continues to be excluded from the U.S. literary and historical canon. *Gates of Freedom* considers de Cleyre's speeches, letters, and essays, including her most well known essay, "Sex Slavery." Part I brings current critical concerns to bear on de Cleyre's writings, exploring her contributions to the anarchist movement, her analyses of justice and

violence, and her views on women, sexuality, and the body. Eugenia DeLamotte demonstrates both de Cleyre's literary significance and the importance of her work to feminist theory, women's studies, literary and cultural studies, U.S. history, and contemporary social and cultural analysis. Part II presents a thematically organized selection of de Cleyre's stirring writings, making *Gates of Freedom* appealing to scholars, students, and anyone interested in Voltairine de Cleyre's fascinating life and rousing work. Eugenia C. DeLamotte is Associate

Professor of English, Arizona State University.

Slavery, Empathy, and Pornography considers the operations of slavery and of abolition propaganda on the thought and literature of English from the late-eighteenth to the mid-nineteenth centuries.

Incorporating materials ranging from canonical literatures to the lowest form of street publication, Marcus Wood writes from the

conviction that slavery was, and still is, a dilemma for everyone in England, and seeks to explain why English society has constructed Atlantic slavery in the way it has. He takes on the works of canonic eighteenth- and nineteenth-century white authors which claimed, when written, to 'account' for slavery, and asks with some scepticism what kind of 'truth' they hold. Taking an interdisciplinary approach, chapters focus on the writings of the major Romantic poets, English Radicals William Cobbett

and John Thelwall, the Surinam writings of John Stedman, the full range of slavery texts generated by Harriet Martineau, John Newton, and the social prophets Carlyle and Ruskin. Slavery, Empathy, and Pornography also contains a radical new critique of the operations of slavery within the work of Austen and Charlotte Brontë.

Love of Worker Bees Orion Award-winning young-adult novelist Eileen Charbonneau now turns her storytelling powers and lauded historical research to her first adult novel: the epic story of two people drawn together from dramatically different spheres of society. As the turn of the century, San Francisco is a far cry from its gold rush days. The railroads have ushered in an era of rapid change and industrialization in California. In the mansions on Russian Hill, powerful men build financial empires by pillaging a landscape rich in natural resources. The daughter of a

lumber baron, Olana Whittaker is struggling to make it on her own as a journalist for the Gold Coast Chronicle. She resents having to use a male pseudonym to be read seriously. Covering the grand opening from Sequoia National Parks, Olana meets forest ranger Matthew Hart, who speaks with passion on the need for protecting nature. Hart has little time for people, especially those who destroy forests. But when the pair are trapped in an early blizzard, Olana learns to appreciate both Hart and the land he is fighting to protect from men like her father. Over the years that follow, Olana and Matt will

part--and come together again--as they live through the turbulent early years of the new century and learn the heartbreaks and joys that come with living, loving, and pursuing their destinies. The Genevans and the Irish in Time of Revolution

University of Illinois Press
A bloody episode that epitomised the political dilemmas of the eighteenth century In 1798, members of the United Irishmen were massacred by the British amid the crumbling walls of a half-built town near Waterford in Ireland. Many

of the Irish were republicans inspired by the French Revolution, and the site of their demise was known as Genevan Barracks. The Barracks were the remnants of an experimental community called New Geneva, a settlement of Calvinist republican rebels who fled the continent in 1782. The British believed that the rectitude and industriousness of these imported revolutionaries would have a positive effect on the Irish populace. The experiment was abandoned, however, after the Calvinists

demanded greater independence and more state money for their project. Terrorists, Anarchists, and Republicans tells the story of a utopian city inspired by a spirit of liberty and republican values being turned into a place where republicans who had fought for liberty were extinguished by the might of empire. Richard Whatmore brings to life a violent age in which powerful states like Britain and France intervened in the affairs of smaller, weaker countries, justifying their actions on the grounds that

they were stopping anarchists and terrorists from destroying society, religion and government. The Genevans and the Irish rebels, in turn, saw themselves as advocates of republican virtue, willing to sacrifice themselves for liberty, rights and the public good. Terrorists, Anarchists, and Republicans shows how the massacre at Genevan Barracks marked an end to the old Europe of diverse political forms, and the ascendancy of powerful states seeking empire and markets—in many respects

the end of enlightenment itself.

Wood and Stone Tristin McIver

A superbly original version of liberalism by a major figure in political theory. In

this provocative work, Richard E. Flathman puts forward his idiosyncratic view of liberalism, one that is particularly concerned with putting freedom and individuality first, one that warns of the individualism-limiting potential of even liberal efforts to promote social justice. Focusing on the ideals he regards as appropriate to liberalism, Flathman analyzes repeated patterns and tendencies that influence societies -- their sustaining institutions. Part I (Ideals) elaborates and vigorously promotes a

conception of the ideals appropriate to liberalism and liberal politics, a conception that foregrounds and celebrates individual self-making or self-enactment. Drawing on but critically assessing ideas and arguments from liberal thinkers from Locke and Kant through Mill, Berlin, and Rawls, the work also reaches out to sources usually regarded as not only outside of but actually antagonistic to liberal tradition: Hobbes, Nietzsche, William James, Proust, Ortega y Gasset, and	Oakeshott. Part II (Institutions) goes on to critically examine the relationship between these ideals and various institutions that are prominent in all liberal societies -- the rule of law, police power, and institutionalized education. At once attracted and resistant to anarchist, antinomian, and active nihilist arguments, Flathman approaches these institutions in a skeptical and wary spirit influenced by such thinkers as Montaigne, Wittgenstein, Cavell,	Derrida, and Foucault. Reflections of a Would-Be Anarchist is a unique attempt to move liberal thought and action toward individuality and away from homogeneity, toward achastening skepticism and away from unifying conceptions of rationality and reasonableness. It will be required reading for political, moral, and legal theorists, as well as anyone concerned with the challenges of sustaining and enlivening liberal thought and action.
