The Art of Activism is an all-purpose guide to artistic activism, combining the creative power of the arts to move us emotionally with the strategic planning of activism necessary to bring about social change. With contemporary case studies and historical examples, chapters on cultural and cognitive theory, sections on what can be learned from unlikely sources like popular culture and marketing techniques, along with investigations into ethics and evaluation, explorations of the creative process and the importance of utopian thinking, and an attached workbook with over fifty exercises to practice, the co-founders of the Center for Artistic Activism take readers step-by-step through the process of becoming, or becoming even better, artistic activists.

This book traces the origins of the "illegal alien" in American law and society, explaining why and how illegal migration became the central problem in U.S. immigration policy—a process that profoundly shaped ideas and practices about citizenship, race, and state authority in the twentieth century. Mae Ngai offers a close reading of the legal regime of restriction that commenced in the 1920s—its statutory architecture, judicial genealogies, administrative enforcement, differential treatment of European and non-European migrants, and long-term effects. She shows that immigration restriction, particularly national-origin and numerical quotas, remapped America both by creating new categories of racial difference and by emphasizing as never before the nation's contiguous land borders and their patrol. A bit of magic, a sprinkling of adventure, and a whole lot of heart collide in *All the Impossible Things*, Lindsay Lackey's extraordinary middle-grade novel about a young girl navigating the foster care system in search of where she belongs. "Wise and wondrous, this is truly a novel to cherish." —Katherine Applegate, New York Times—bestselling author of *Wishtree* An Indies Introduce Selection Red's inexplicable power over the wind comes from her mother. Whenever Ruby "Red" Byrd is scared or angry, the wind picks up. And being placed in foster care, moving from family to family, tends to keep her skies stormy. Red knows she has to learn to control it, but can't figure out how. This time, the wind blows Red into the home of the Grooves, a quirky couple who run a petting zoo, complete with a dancing donkey and a giant tortoise. With their own curious gifts, Celine and Jackson Groove seem to fit like a puzzle piece into Red's heart. But just when Red starts to settle into her new life, a fresh storm rolls in, one

she knows all too well: her mother. For so long, Red has longed to have her mom back in her life, and she's quickly swept up in the vortex of her mother's chaos. Now Red must discover the possible in the impossible if she wants to overcome her own tornadoes and find the family she needs.

"This is a self-help book on how to argue effectively, conciliate, and gently persuade. The authors admit to getting it wrong in their own past conversations. One by one, I recognize the same mistakes in me. The world would be a better place if everyone read this book." -- Richard Dawkins, author of *Science in the Soul* and *Outgrowing God* In our current political climate, it seems impossible to have a reasonable conversation with anyone who has a different opinion. Whether you're online, in a classroom, an office, a town hall -- or just hoping to get through a family dinner with a stubborn relative -- dialogue shuts down when perspectives clash. Heated debates often lead to insults and shaming, blocking any possibility of productive discourse. Everyone seems to be on a hair trigger. In *How to Have Impossible Conversations*, Peter Boghossian and James Lindsay guide you through the straightforward, practical, conversational techniques necessary for every successful conversation -- whether the issue is climate change, religious faith, gender identity, race, poverty, immigration, or gun control. Boghossian and Lindsay teach the subtle art of instilling doubts and opening minds. They cover everything from learning the fundamentals for good conversations to achieving expert-level techniques to deal with hardliners and extremists. This book is the manual everyone needs to foster a climate of civility, connection, and empathy.

A \*Read With Jenna Today Show Book Club pick\* and razor-sharp debut novel of three best friends navigating love, sex, faith, and the one night that changes it all. It's always been Malak, Kees, and Jenna against the world. Since childhood, under the watchful eyes of their parents, aunts and uncles, they've learned to live their own lives alongside the expectations of being good Muslim women. Staying over at a boyfriend's place is disguised as a best friend's sleepover, and tiredness can be blamed on studying instead of partying. They know they're existing in a perfect moment. With growing older and the stakes of love and life growing higher, the delicate balancing act between rebellion and religion is becoming increasingly difficult to navigate. Malak wants the dream: for her

partner, community, and faith to coexist happily, and she wants this so much she's willing to break her own heart to get it. Kees is in love with Harry, a white Catholic man who her parents can never know about. When he proposes, she must decide between her future happiness and the life she knows and family she loves. Jenna is the life of the party, always ready for new pleasures, even though she's plagued by a loneliness she can't shake. Through it all, they have always had each other. But as their college years come to a close, one night changes everything when harsh truths are revealed. As their lives begin to take different paths, Malak, Kees, and Jenna—now on the precipice of true adulthood—must find a way back to each other as they reconcile faith, family, and tradition with their own needs and desires. *These Impossible Things* is a paean to youth and female friendship—and to all the joy and messiness love holds. Do we believe that God still does miracles? Considering how difficult it is for many of us adults to trust in the miraculous power of God, how much more difficult can it be for a young person in the midst of struggles about identity and purpose in life? With the help of his son Parker, bestselling author Mark Batterson now brings the exciting message of a God who longs to do miracles in our lives to a teen audience. Together they show young readers that God is intimately involved in their lives and wants them to experience the miraculous. With poignant examples from the lives of real teens, *The Grave Robber, Student Edition* brings to life not only the seven miracles from John's Gospel but the countless miracles we witness every day--if only we have eyes to see.

This book is a collection of studies applying game-theoretical concepts and ideas to analysing the semantics of natural language and some formal languages. The bulk of the book consists of several papers by Hintikka, Carlson and Saarinen and discusses several of the central problems of the semantics of natural language. The topics covered are the semantics of natural language quantifiers, conditionals, pronouns and anaphora more generally. Hintikka's famous essay presenting examples of "branching quantifier structures" in English, as well

as one formulating his "any-every thesis", are included. The book also includes Hintikka's closely argued philosophical discussion of the relationships between the new semantical games with the language games of Wittgenstein. Other papers apply the game-theoretical approach to formal languages including tense logics and tense anaphora (Saarinen), deontic logic and Ross' paradox (Hintikka), and usual predicate logic (Rantala). The latter amounts to an explication of the "impossible possible" worlds as is shown in Hintikka's concluding paper.

\*Shortlisted for the 2019 Royal Society Insight Investment Science Book Prize\* One of the most fascinating scientific detective stories of the last fifty years, an exciting quest for a new form of matter. "A riveting tale of derring-do" (Nature), this book reads like James Gleick's *Chaos* combined with an Indiana Jones adventure. When leading Princeton physicist Paul Steinhardt began working in the 1980s, scientists thought they knew all the conceivable forms of matter. The *Second Kind of Impossible* is the story of Steinhardt's thirty-five-year-long quest to challenge conventional wisdom. It begins with a curious geometric pattern that inspires two theoretical physicists to propose a radically new type of matter—one that raises the possibility of new materials with never before seen properties, but that violates laws set in stone for centuries. Steinhardt dubs this new form of matter "quasicrystal." The rest of the scientific community calls it simply impossible. The *Second Kind of Impossible* captures Steinhardt's scientific odyssey as it unfolds over decades, first to prove viability, and then to pursue his wildest conjecture—that nature made quasicrystals long before humans discovered them. Along the way, his team encounters clandestine collectors, corrupt scientists, secret diaries, international smugglers, and KGB agents. Their quest culminates in a daring expedition to a distant corner of the Earth, in pursuit of tiny fragments of a meteorite forged at the birth of the solar system. Steinhardt's discoveries chart a new direction in science. They not only change our ideas about patterns and matter, but also reveal new truths about the processes that shaped our solar system. The underlying science is important, simple, and beautiful—and Steinhardt's firsthand account is "packed with discovery, disappointment, exhilaration, and persistence...This book is a front-row seat to history as it is made" (Nature).

Think about this -- \* What would you try if you knew "Anything Is Possible"? \* What goal could you achieve if you knew "Anything Is Possible"? \* What dream could you make come true if you knew the seven steps proving "Anything Is Possible"? The answers are in Dr. Joe Vitale's newest book. It's called - "Anything Is Possible!" It reveals - "The 7 Steps for Doing the Impossible" It explains -- "Mind Expanding Secrets for Achieving Your Biggest, Boldest, Most Bodacious Goals Discovered While Bending Nails, Bolts, Steel Bars and Horseshoes by HAND" World famous Strongman Grandmaster Dennis Rogers said - "In January of 2017 Joe Vitale attended my annual strongman seminar: Oldtime Strongman University. By the end of the day he had twisted a horseshoe, bent a steel bar into the shape of a fish, and with one blow of his fist - drove a nail so far through a piece of construction lumber that he surprised us all. That morning he left his home as a 63 year-old guy. That evening he arrived home as a Strongman." The book isn't about bending steel so much as it is about bending your MIND so you can achieve dreams that others will marvel at. It reveals the 7 secrets for achieving the impossible. This inspiring book will lift you, motivate you, stretch you, entertain you, and get you agreeing that ANYTHING IS POSSIBLE!

Biblicism, an approach to the Bible common among some

American evangelicals, emphasizes together the Bible's exclusive authority, infallibility, clarity, self-sufficiency, internal consistency, self-evident meaning, and universal applicability. Acclaimed sociologist Christian Smith argues that this approach is misguided and unable to live up to its own claims. If evangelical biblicism worked as its proponents say it should, there would not be the vast variety of interpretive differences that biblicists themselves reach when they actually read and interpret the Bible. Far from challenging the inspiration and authority of Scripture, Smith critiques a particular rendering of it, encouraging evangelicals to seek a more responsible, coherent, and defensible approach to biblical authority. This important book has generated lively discussion and debate. The paperback edition adds a new chapter responding to the conversation that the cloth edition has sparked.

How the scientific study of magic reveals intriguing—and often unsettling—insights into the mysteries of the human mind. What do we see when we watch a magician pull a rabbit out of a hat or read a person's mind? We are captivated by an illusion; we applaud the fact that we have been fooled. Why do we enjoy experiencing what seems clearly impossible, or at least beyond our powers of explanation? In *Experiencing the Impossible*, Gustav Kuhn examines the psychological processes that underpin our experience of magic. Kuhn, a psychologist and a magician, reveals the intriguing—and often unsettling—insights into the human mind that the scientific study of magic provides. Magic, Kuhn explains, creates a cognitive conflict between what we believe to be true (for example, a rabbit could not be in that hat) and what we experience (a rabbit has just come out of that hat!). Drawing on the latest psychological, neurological, and philosophical research, he suggests that misdirection is at the heart of all magic tricks, and he offers a scientific theory of misdirection. He explores, among other topics, our propensity for magical thinking, the malleability of our perceptual experiences, forgetting and misremembering, free will and mind control, and how magic is applied outside entertainment—the use of illusion in human-computer interaction, politics, warfare, and elsewhere. We may be surprised to learn how little of the world we actually perceive, how little we can trust what we see and remember, and how little we are in charge of our thoughts and actions. Exploring magic, Kuhn illuminates the complex—and almost magical—mechanisms underlying our daily activities.

Bill Strickland has spend the past thirty years transforming the lives of thousands of people through Manchester Bidwell, the jobs training center and community arts program he founded in Pittsburgh.

Working with corporations, community leaders, and schools, he and his staff strive to give disadvantaged kids and adults the opportunities and tools they need to envision and build a better, brighter future. In *Make the Impossible Possible*, Bill Strickland shows how each of us, by adopting the attitudes and beliefs he has lived by every day, can reach our fullest potential and achieve the impossible in our lives and careers--and perhaps change the world a little in the process.

Through lessons from Strickland's own life experiences and those of countless others who have overcome challenging circumstances and turned their lives around, *Make the Impossible Possible* teaches us how to build on our passions and strengths, dream bigger and set the bar higher, achieve meaningful success, and inspire the lives of others.
