The male reproductive system consists of a number of sex organs that play a role in the process of human reproduction.

These organs are located on the outside of the body and within the pelvis. The

main male sex organs are the penis and the testicles which produce semen and sperm, which, as part of sexual

intercourse, fertilize an ovum in the female's body; the fertilized ovum develops into a fetus, which is later born

as an infant. The corresponding system in females is the female reproductive
