Breast Cancer Risk Assessment and
Screening in ... - ACOG
The American College of Obstetricians
and Gynecologists ' recommendation to
offer mammography to average-risk
women beginning at age 40 years and to
initiate screening by no later than age 50
years is consistent with all three major
consensus guidelines Table 1 3 4 23.
Given the reduction in mortality and
years of life extended by screening
women starting at age 40 years, it is
appropriate to begin offering screening
starting at age 40 years using shared
decision making involving a ...

What are the ACOG guidelines on breast
cancer screening?
Now the American College of Obstetricians
and Gynecologists (ACOG) has released
updated breast cancer screening guidelines that
recommend that women at average risk be
offered annual screening mammograms at age
40. The guidelines also say that if a woman
doesn ' t start having annual mammograms at
age 40, regular screening should start at age
50.

You may need another mammogram
before a score can be given. 1—Nothing
abnormal is seen. You should continue to
have routine screening. 2—Benign
conditions, such as cysts, are seen. You
should continue to have routine screening.
3—Something is seen that probably is not
cancer. A repeat mammogram should be
done within 6 months.
