Backcover copy. Management Accounting for Decision Makers, 9th edition. Peter Atrill and Eddie McLaney "Comprehensive coverage of the essential topics in management accounting. Theory is supplemented by real-life examples and plenty of exercises for students to practice"

Accounting managers give advice to decision-makers, who then implement changes at the company with this advice in mind. Often, accounting managers' analyses lead to raw data and numbers. An accounting manager has to speak two languages – accounting jargon and management dialect.

Accounting for Management and decision Making

Management Accounting for Decision Makers is a well balanced book that will illustrate the many complexities and advantages of understanding cost and performance accounting and management. This was the textbook for my masters' course on Management Accounting, and I found it to be well balanced between the technical, detailed complexities of management information systems and the

general managerial perspective.

Decision-making in Management Accounting In management accounting, decision-making may be simply defined as choosing a course of action from among alternatives. If there are no alternatives, then no decision is required. A basic assumption is that the best decision is the one that involves the most revenue or the least amount of cost.
