Financial and Strategic Management for Nonprofit Organizations, Fourth Edition CRC Press

We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

Enterprise Resource Planning, Fourth Edition John Wiley & Sons
The book provides a comprehensive coverage of the course-content requirements of the students appearing in the paper 'Management Accounting' at the MBA and MCom examinations of different Indian Universities and those of professional institutions. The book has been divided into five convenient sections. Each section covers a different aspect of 'Management Accounting' with the subject divided into chapters covering different topics in a systematic and concise manner. The unique features of this book lie in its simple and systematic presentation of theory, which would enable the students to solve practical problems with ease. The other main strengths of this book are: plentiful illustrative examples and end-of-the-chapter exercises with answers.

The highly acclaimed **Financial and Strategic Management for Nonprofit Organizations** provides an encyclopedic account of all the key financial, legal, and managerial issues facing nonprofit executives. This is today's definitive single-source text and reference for managing any nonprofit organization. Designed for both professional and graduate student readers, this work thoroughly addresses all key aspects of building managerial skill and promoting imagination and innovation in organizations across the nonprofit spectrum. Herrington J. Bryce presents every technique and concept in the context of today's public policies, leading practices, laws, norms, and expectations. Herrington J. Bryce was a senior economist at the Urban Institute, a Brookings Economic Policy Fellow, a Fellow at the Institute of Politics at Harvard and a visiting professor in regional economics and planning at the Massachusetts Institute of Technology. He taught micro economic theory and public finance at Clark University in Worcester, Massachusetts, and was director of the program in legal and budget studies at the University College at the University of Maryland. He currently teaches courses at the College of William & Mary in nonprofits but mostly in corporate financial strategy and cost management—heavily reflected in this text. He has published extensively and has served on many state, local and federal government advisory committees. He has a PhD in economics from the Maxwell School at Syracuse University, and a CLU and ChFC from the American College.

While there is growing interest in IFRS within the US, interest outside

the US has exploded. Weygandt's fourth edition of **Financial Accounting: IFRS** highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.
