The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

This custom edition is published for La Trobe University.

[Automation, Production Systems, and Computer-integrated Manufacturing](#) McGraw-Hill Education (UK)

Thoroughly updated for its Third Edition, this popular quick-reference handbook remains a staple for medical students on psychiatric rotations as well as psychiatric residents and practitioners. In an easy-to-scan outline format, the book presents the etiology, epidemiology, clinical characteristics, and treatment of all psychiatric disorders. Additional chapters cover the psychiatric examination, special populations, psychotherapy, biological therapies, medication-induced movement disorders, legal issues, and laboratory tests. The book is replete with tables and includes color photographs of psychiatric drugs. Each chapter ends with suggestions for further reading, which include cross-references to specific page numbers in Kaplan and Sadock's Comprehensive Textbook of Psychiatry, Seventh Edition.

[Patterns of Entrepreneurship Management](#) Pearson Education India

Hatten provides a balanced introduction to both entrepreneurship and small business management before turning his focus toward achieving and maintaining a sustainable competitive advantage as a small organization. Current issues including global opportunities, service, quality and technology are highlighted throughout the text, and the Third Edition features an increased emphasis on small business ownership by women and minority groups. Additional coverage is given to the new Small Business Administration size standards, creating a personalized business plan, and e-commerce. New! A full chapter is devoted to creating a business plan. Two complete plans written by undergraduate students appear in the text—one designed for a service business, the other for a retail establishment. Electronic Business Plan Templates are also available online. New! "What Would You Do" exercises provide realistic opportunities for students to think critically and realistically. New! "Profile in Entrepreneurship" boxes spotlight individuals who've created new products and businesses. New! Eduspace course management system. New! Coverage of small business ownership by women and minority groups has been increased throughout the text New! End of chapter questions ("Comprehension Checks") have been added to each chapter. Author created supplements including the Instructors Resource Manual, Test Bank and PowerPoint slides, ensure seamless integration of the text and teaching resources. A shorter length accommodates one semester courses without sacrificing important topics.

[Financial Accounting and Reporting](#) Financial Times/Prentice Hall

[Patterns of Entrepreneurship Management](#), 6th Edition is the essential roadmap for anyone interested in starting a new venture whether for-profit or social enterprise. Featuring updated themes, new cases, and enhanced interactive learning tools, the sixth edition of Patterns of Entrepreneurship Management addresses the challenges, issues, and rewards real-life entrepreneurs encounter when starting and growing a venture in today ' s

complex world. Using its innovative " Roadmap " approach, this practical guide enables students and aspiring entrepreneurs to design, execute, and maintain their business plan—covering every essential step of the entrepreneurial process, from turning an idea into a business model to securing funding and managing resources. To support student venture development and faculty facilitation of associated topics, the authors have added over 30 worksheets that serve as prompts to help students focus on what should be considered at each stage of venture development. For each chapter, specific " Best Practices " associated with each worksheet have been included to help students understand the theory and/or rationale behind the prompts, helping the student connect the work with where they are in the venture process. The authors draw from their extensive experience launching new ventures and educating thousands of students globally to provide a unique hands-on approach to developing the skills required to start and build a company in the modern business environment. Discussions focus on the real-life challenges facing startup founders: important issues such as how to drive continuous innovation and how to create a company culture that maximizes success.

[Project Management](#) John Wiley & Sons

[Principles of Management](#) is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters. Contributing Authors David S. Bright, Wright State University Anastasia H. Cortes, Virginia Tech University Eva Hartmann, University of Richmond K. Praveen Parboteeah, University of Wisconsin-Whitewater Jon L. Pierce, University of Minnesota-Duluth Monique Reece Amit Shah, Frostburg State University Siri Terjesen, American University Joseph Weiss, Bentley University Margaret A. White, Oklahoma State University Donald G. Gardner, University of Colorado-Colorado Springs Jason Lambert, Texas Woman's University Laura M.
