The core idea of the book is to marry cost management (management accounting) with the insights that have been developed in Corporate Strategy over the past 20 years. What we get is a richer and more informative use of management accounting, but one that is more difficult to apply because it relies less on simple formulas and rules.

 The aim of the sixth edition is to explain
 the principles involved in the design and
 evaluation of management and cost
 accounting information systems. The
 emphasis in the book is on management
 accounting systems - those that are used
 to accumulate, classify, summarize and
 report information that will be used for
 internal decision-making purposes within
 an organisation.
