Launching New Ventures: An Entrepreneurial Approach Cengage

Learning

Perfect for instructors who take a practical, skill-building approach to teaching leadership, the seventh edition of LEADERSHIP provides an ideal balance of essential theory and real-world applications. Andrew DuBrin, a highly respected author and consultant, incorporates the latest research on leadership and current business practices from academic journals and popular periodicals. The text provides students with a strong practical foundation by introducing leaders they can relate to and reinforcing their knowledge with frequent skill-building activities. Key updates include new opening vignettes and end-of-chapter

cases, numerous additional skill-building exercises, and video discussion questions at the end of each chapter. An all-new CourseMate interactive study tool site features additional video content, premium quizzing, and links to both the Career Transitions job search tool and Cengage's KnowNOW blog, which is constantly updated and provides an intuitive view of current events. South Western Educational Publishing Research Methods in Education introduces research methods as an integrated set of techniques for investigating questions about the educational world. This lively, innovative

text helps students connect technique and substance, appreciate the value of both qualitative and quantitative methodologies, and make ethical research decisions. It weaves actual research "stories" into the presentation of research topics, and it emphasizes validity, authenticity, and practical significance as overarching research goals. The text is divided into three sections: Foundations of Research (five chapters), Research Design and Data Collection (seven chapters), and Analyzing and Reporting Data (three chapters). This tripartite conceptual framework honors traditional quantitative approaches while reflecting the growing popularity of qualitative studies, mixed method designs, and school-based techniques. This approach provides a comprehensive, conceptually unified, and well-written introduction to the exciting but complex field of educational research.

BUSN10 John Wiley & Sons

For undergraduate or graduate courses that include planning, conducting, and evaluating research. A do-it-yourself, understand-it-yourself manual designed to help students understand the fundamental structure of research and the methodical process that leads to valid, reliable results. Written in uncommonly engaging and elegant prose, this text guides the reader, step-by-step, from the selection of a problem, through the process of conducting authentic research, to the preparation of a completed report, with practical suggestions based on a solid theoretical framework and sound pedagogy. Suitable as the core text in any introductory research course or even for self-instruction, this text will show students two things: 1) that quality research demands planning and

design; and, 2) how their own research projects can be executed effectively and professionally.
