Managerial Accounting for
Managers, 2nd Edition by
Noreen/Brewer/Garrison is
based on the market-
leading text, Managerial
Accounting, by Garrison,
Noreen and Brewer. The
Noreen book was created
to serve customers who do
not wish to teach the
financial accounting-
oriented content that is
included in the Garrison
book. Of our three books
(the Brewer book, the
Garrison book, and the
Noreen book), the Noreen
book is the most pure
management accounting
textbook. The other two
books have greater
amounts of financial
accounting content.

Managerial Accounting for
Managers, 2nd Edition is
geared towards professors
who love Garrison's market-
leading managerial

accounting content, but
have been bothered by the
debits and credits included
in the book. It includes the
same coverage of
managerial accounting
topics such as Relevant
Costs for Decision Making,
Capital Budgeting
Decisions, and Segment
Reporting and
Decentralization without the
journal entries. The job-
order costing chapter has
been extensively rewritten
to remove all journal
entries. Furthermore, the
chapters dealing with
process costing, the
statement of cash flows,
and financial statement
analysis have been dropped
to enable professors to
focus their attention on the
bedrocks of managerial
accounting--planning,
control, and decision
making.
