Managerial Accounting by Garrison, Noreen, Brewer, Chesley and Carroll is your guide through the challenging waters of managerial accounting. This seventh Canadian edition identifies the three functions managers must perform within their organizations-plan operations, control activities, make decisions-and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. To achieve this, Managerial Accounting 7ce focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a crucial compass for students seeking to master this challenging course area.
