"Inspiring Story for

admired most about the
book was the positive
attitude the author
maintained. When most
people would have given
up and accepted
mediocrity, Rodrigues
instead chooses to push

how he takes something

"Authors, The Dyslexic

for success...usually
going the typical route of
graduating from High
School, spending 4 years
at college, starting a job
and getting married. It's

nice and safe and predictable. Well, seems Mr. Rodrigues couldn't do it that way if he wanted to. But he appears to have a special ability to see people and opportunity for what they are, doors slightly ajar; with a little push, new worlds opened up to him. He seems to have an uncanny ability to live his life in a very wide open way. I am jealous."
