---

Managing change is not about managing schedules, project scope or simply avoiding resistance to change. Change is about the impact on people, culture, systems, and structures. Change is bringing about a new state that better positions the organization for success in the future. Transition – change does not usually happen all at once.

Managing Changes in the Workplace  
Why managing change is important  
People are at the centre of many of the changes in the workplace. People professionals and HR functions are among those best placed to drive effective change.  
Managing To Change The World  
Managing Change In The Workplace

The world - and especially the business world - continues to change so swiftly that the pace of change now exceeds an individual's ability to keep up with it. Organisations are changing dramatically in terms of their strategies, structures, systems, boundaries and expectations. This contributes to our uncertainty about the future and poses problems for those charged with introducing or ...
