In ORIGIN, Baxter responds by dropping the relentless quest for aliens pursued in the first two books, and instead tells a slightly more accessible story about what we do have--our humanity--and all the profound secrets and insights lying deep within our collective evolutionary past, and future(s). It is a story of the destiny of the human species.

Manifold: Origin (2001) is a science fiction novel by British author Stephen Baxter, the

third instalment in the Manifold Trilogy. As with the other books, the protagonist Reid Malenfant is put through a scenario dealing with the Fermi paradox. Each novel is an alternative scenario rather than a chronological sequel, and does not occur in the same universe.

Manifold: Origin by Baxter, Stephen - Amazon.ae

Manifold: Time is a 1999 science fiction novel by Stephen Baxter. It is the first of Baxter's Manifold Trilogy (the others being Manifold: Space and Manifold: Origin), although the books can be read in any order because the series takes place in a multiverse.. The book was nominated for the 2000 Arthur C. Clarke Award.
