Michael Burger's goal in this inexpensive overview is to provide a brief, historical narrative of Western civilization. Not only does its length and price separate this text from the competition, but its no-frills, uncluttered format and well-written, one-authored approach make it a valuable asset for every history student. The Shaping of Western Civilization begins with the ancient Near East and ends with globalization.

Unlike other textbooks that pile on dates and facts, Shaping is a more coherent and interpretive presentation. Burger's skills as writer and synthesizer will enable students to obtain the background required to ask meaningful questions of primary sources. In addition to suggestions for further reading, this overview includes over 50 images and 22 maps.

Macroeconomics Simplified explains the intuition behind Keynesian and neoclassical macroeconomics using graphs and simple algebra. It provides students with a strong conceptual basis for understanding the tension between Keynesian and neoclassical systems that has once again come to the forefront since the 2007–08 financial crisis. The book shows how theoretical perspectives affect macroeconomic policy choices and proposes a pragmatic approach to policy that is sensitive to prevailing economic conditions. Students of economics and business alike will enjoy its concise and engaging analysis and find the applications and references to the Indian economy helpful.
