From Carnegie Medal finalist Jenny Valentine comes a bold new story about the boundlessness of love and second chances, perfect for fans of David Levithan's Every Day. Jude doesn't believe in love, or magic. Life is little more than ordinary. That is, until Jude's mother loses her job and moves them to a little town by the sea to live with Henry Lake--an eccentric old man with rooms to rent. Henry is odd, the town is dull, and worst of all, Jude feels out of place and alone. So when Novo turns up in the house across the street, dressed all in black and looking unbearably handsome, Jude's summer takes an immediate turn for the better. But Novo isn't all that he seems to be--or maybe he's more than Jude can possibly understand. Novo is pure magic--someone who can bend and stretch the bounds of time. Someone who wakes up in different places and at different points in history with utter regularity. He knows that each Now is fleeting, that each moment is only worth the energy it expends on itself, and that each experience he has will be lost to him before long. But Jude and Novo form a bond that shifts reality for both of them. Jude begins to question what forever really means--only to find out that Novo knows that forever isn't real. And when things go horribly wrong, Jude and Novo are faced with an impossible question that may change both of their lives irreparably--what is worth sacrificing for love? A stunningly written, compelling exploration of the universality of love--and what it means to live in the moment--that quite literally defies both logic and time. A love story without borders that reflects the best of our modern world. Praise for Hello Now: \* "Babbitt's Tuck Everlasting revisioned as a passionate YA love story, this is an exquisitely told romantic fantasy, golden yet lacerating." --BCCB, STARRED REVIEW  
Intermediate Microeconomics: A Modern Approach Alpha Edition  
Given its continent-like diversity, India's epidemiological, nutritional, and demographic transitions are occurring in a staggered fashion, with high state-level variances. In many parts of the country, high rates of undernutrition co-exist with equally high and increasing rates of overweight and obesity. Further, the incidence of non-communicable diseases (NCDs) as a leading cause of mortality is increasing, even as the communicable, maternal, neonatal and nutritional causes (or the “Millennium Development Goals (MDG) conditions”) are coming down. Indeed, India has witnessed inconsistent progress towards the MDGs, and even in states where absolute levels of “MDG conditions” are still high, the NCD proportion is growing rapidly. The imperative is for a realignment of policy responding to fast-changing subnational realities, through greater integration between health and nutrition policy at every level of governance.

An authentic, heartfelt and compelling narrative – straight from the horse’s mouth – that reveals for the first time numerous unknown aspects of the life and times of one of the greatest legends of all time who stands out as a symbol of secular India. Dilip Kumar (born as Yousuf Khan), who began as a diffident novice in Hindi cinema in the early 1940s, went on to attain the pinnacle of stardom within a short time. He came up with spellbinding performances in one hit film after another – in his almost six-decade-long career – on the basis of his innovative capability, determination, hard work and never-say-die attitude. In this unique volume, Dilip Kumar traces his journey right from his birth to the present. In the process, he candidly recounts his interactions and relationships with a wide variety of people not only from his family and the film fraternity but also from other walks of life, including politicians. While seeking to set the record straight, as he feels that a lot of what has been written about him so far is ‘full of distortions and misinformation’, he narrates, in graphic detail, how he got married to Saira Banu, which reads like a fairy tale! Dilip Kumar relates, matter-of-factly, the event that changed his life: his meeting with Devika Rani, the boss of Bombay Talkies, when she offered him an acting job. His first film was Jwar Bhata (1944). He details how he had to learn everything from scratch and how he had to develop his own distinct histrionics and style, which would set him apart from his contemporaries. After that, he soon soared to great heights with movies such as Jugnu, Shaheed, Mela, Andaz, Deedar, Daag and Devdas. In these movies he played the tragedian with such intensity that his psyche was adversely affected. He consulted a British psychiatrist, who advised him to switch over to comedy. The result was spectacular performances in laugh riots such as Azaad and Kohinoor, apart from a scintillating portrayal as a gritty tonga driver in Naya Daur. After a five-year break he started his ‘second innings’ with Kranti (1981), after which he appeared in a series of hits such as Vidhaata, Shakti, Mashaal, Karma, Saudagar and Qila.

While India has been a popular subject of scholarly analysis in the past decade, the majority of that attention has been focused on its major cities. This volume instead explores contemporary urban life in a smaller city located in India's Northeast borderland at a time of dramatic change, showing how this city has been profoundly affected by armed conflict, militarism, displacement, interethnic tensions, and the expansion of neoliberal capitalism.

"Maria Mies believes that feminist analysis must transcend the divisions between Western and Third World women. These divisions have been created historically by a capitalist patriarchy that has integrated the whole world into a system of global exploitation and accumulation, at the same time as it has divided people, women in particular. It is from this perspective that Maria Mies explores the state of the women's movement worldwide; the history of the related processes of colonialism, the witch hunt and housewifization; women's work in the new internationl division of labour; the issue of increasing violence against women; the relationship between women's liberation and national liberation struggles; and why it is that even in socialist societies patriarchal coercion so often reasserts itself"--from back cover.
