The Government is committed to introducing a statutory register of lobbyists. The aim is to increase the information available about lobbyists without unduly restricting lobbyists' freedom and ability to represent the views of the businesses, groups, charities and other individuals and organisations they represent or to deter members of the public from getting involved in policy making. This consultation paper asks a number of specific questions whose answers will help inform the drafting of the legislation that will be brought in. The key questions are: on the definition of lobbying and lobbyists; who should or should not be required to register; what information should be provided in the register; how often should the register be updated; what sanctions might be appropriate; who should run the register? An annex includes background information, including reference to the Public Administration Select Committee report on lobbying (1st report session 2008-09, HC 36-I, ISBN 9780215525598), the Government response (PASC 8th special report, HC 1058, ISBN 9780215541499), and details of other jurisdictions' approaches to lobbying regulation. (PASC also did a follow-up on developments since its earlier inquiry: 5th report of session 2009-10 (HC 108, ISBN 9780215542649) to which the Government responded (3rd special report, HC 393, ISBN 9780215544421)).

Interactive Narratives and Transmedia Storytelling provides media students and industry professionals with strategies for creating innovative new media projects across a variety of platforms. Synthesizing ideas from a range of theorists and practitioners across visual, audio, and interactive media, Kelly McErlean offers a practical reference guide and toolkit to best practices, techniques, key historical and theoretical concepts, and terminology that media storytellers and creatives need to create compelling interactive and transmedia narratives. McErlean takes a broad lens, exploring traditional narrative, virtual reality and augmented reality, audience interpretation, sound design, montage, the business of transmedia storytelling, and much more. Written for both experienced media practitioners and those looking for a reference to help bolster their creative toolkit or learn how to better craft multiplatform stories, Interactive Narratives and Transmedia Storytelling serves as a guide to navigating this evolving world.

The Whalestoe Letters The Friedman Archives Press
This book is the larger-sized paperback version of Photographer's Guide to the Sony DSC-RX100 III. This version of the book contains the same content as the earlier version, which was published in September 2014 with dimensions of 5.5 by 8.5 inches (140 by 216 mm). The new version of the book, which replaces the original version, is being published at a size of 8.5 by 11 inches (216 by 280 mm) in order to present more information on each page, which keeps related images closer to the text they illustrate and reduces the page count, making the book easier to manage. This book is a complete guide to using the Sony DSC-RX100 III camera, one of the most advanced, but still pocketable, cameras available. With this book, author Alexander White provides users of the RX100 III with a manual covering all aspects of the camera. Using a tutorial-like approach, the book shows beginning and intermediate photographers how to accomplish things with the RX100 III, and explains when and why to use the camera's features. The book provides details about the camera's shooting modes as well as its menu options for shooting, playback, setup, and special effects. The book covers all of the new features of the RX100 III, including its unique pop-up electronic viewfinder, tilting LCD screen, built-in neutral density filter, and enhanced capabilities for camera control and image transfer over a wireless network. The book includes more than 400 color photographs that illustrate the camera's controls, display screens, and menus. The images also provide examples of photographs taken using the RX100 III's Scene mode, with settings optimized for subjects such as landscapes, sunsets, portraits, and action shots; the Creative Style and Picture Effect menu options, with settings for altering the appearance of images; and features for continuous shooting and shooting in dim light. The book also provides introductions to more advanced topics such as infrared photography, astrophotography, and digiscoping. The book includes a full discussion of the video

features of the RX100 III, which can shoot HD video with stereo sound, and which offers manual control of exposure and focus during movie recording as well as an upgraded video format, XAVC S. In three appendices, the book discusses accessories for the RX100 III, including cases, external flash units, and filter adapters, and includes a list of websites and other resources for further information. The book includes an appendix with "quick tips" on how to take advantage of the camera's features in the most efficient ways possible. This guide to the RX100 III includes a detailed index, so the reader can quickly find needed information about any particular feature or aspect of the camera.

The New Photography Manual Sterling Publishing Company, Inc.

Between 1982 and 1989, Pelafina H. Lièvre sent her son, Johnny Truant, a series of letters from The Three Attic Whalestoe Institute, a psychiatric facility in Ohio where she spent the final years of her life. Beautiful, heartfelt, and tragic, this correspondence reveals the powerful and deeply moving relationship between a brilliant though mentally ill mother and the precocious, gifted young son she never ceases to love. Originally contained within the monumental House of Leaves, this collection stands alone as a stunning portrait of mother and child. It is presented here along with a foreword by Walden D. Wyhrta and eleven previously unavailable letters.

The Film Book R. R. Bowker

This eighth edition of a work first published almost 100 years ago, provides a major revision of this technical reference source for photographers. New chapters include autofocus systems, metering systems in cameras, still video cameras and archival aspects.

Large-Scale Combat Operations John Wiley & Sons

Television/radio Age DK Publishing (Dorling Kindersley)

Playing with Videogames documents the richly productive, playful and social cultures of videogaming that support, surround and sustain this most important of digital media forms and yet which remain largely invisible within existing studies. James Newman details the rich array of activities that surround game-playing, charting the vibrant and productive practices of the vast number of videogame players and the extensive 'shadow' economy of walkthroughs, FAQs, art, narratives, online discussion boards and fan games, as well as the cultures of cheating, copying and piracy that have emerged.

Playing with Videogames offers the reader a comprehensive understanding of the meanings of videogames and videogaming within the contemporary media environment.

The Manual of Photography Taylor & Francis

Semiotics has been making progressively inroads into marketing research over the past thirty years. Despite the amply demonstrated conceptual appeal and empirical pertinence of semiotic perspectives in various marketing research streams, spanning consumer research, brand communications, branding and consumer cultural studies, there has been a marked deficit in terms of consolidating semiotic brand-related research under a coherent disciplinary umbrella with identifiable boundaries and research agenda. The Handbook of Brand Semiotics furnishes a compass for the perplexed, a set of anchors for the inquisitive and a solid corpus for scholars, while highlighting the conceptual richness and methodological diversity of semiotic perspectives. Written by a team of expert scholars in various semiotics and branding related fields, such as John A. Bateman, David Machin, Xavier Ruiz Collantes, Kay L. O'Halloran, Dario Mangano, George Rossolatos, Merce Oliva, Per Ledin, Gianfranco Marrone, Francesco

Mangiapane, Jennie Mazur, Carlos Scolari, Ilaria Ventura, and edited by George Rossolatos, Chief Editor of the International Journal of Marketing Semiotics, the Handbook is intended as a point of reference for researchers who wish to enter the 'House of Brand Semiotics' and explore its marvels. The Handbook of Brand Semiotics, actively geared towards an inter-disciplinary dialogue between perspectives from marketing and semiotics, features the state-of-the-art, but also offers directions for future research in key streams, such as: Analyzing and designing brand language across media Brand image, brand symbols, brand icons vs. iconicity The contribution of semiotics to transmedia storytelling Narrativity and rhetorical approaches to branding Semiotic roadmap for designing brand identity Semiotic roadmap for designing logos and packaging Comparative readings of structuralist, Peircean and sociosemiotic approaches to brandcomms Sociosemiotic accounts of building brand identity online Multimodality and Multimodal critical discourse analysis Challenging the omnipotence of cognitivism in brand-related research Semiotics and (inter)cultural branding Brand equity semiotics

AV Market Place 1989 Pantheon Magic Lantern Guides Multimedia Workshops The world's best photographic package! Magic Lantern Guides and DVDs have always provided the very best, most in-depth coverage of a camera's ins-and-outs. Now, there's even more "magic" on the market for photographers: the MAGIC LANTERN MULTIMEDIA WORKSHOP. It's a complete class in digital photography with a D-SLR camera--one that enables you to learn the essentials at your own pace, in the comfort in your own home. The attractive package includes: - Specific 80-minute DVD: An authoritative DVD guide made just for your model. Created by photographers for photographers, it covers specific camera features and functions. The format allows you to navigate easily between different topics and review chapters any time. - Taking Great Digital Photos: This full-color, 64-page book gets newcomers to the digital world started right. Packed with picture-taking tips and information on digital file

formats, it explains how f/stops and shutter speeds work together to create an exposure, which focal lengths are best for various subjects, and how to get accurate color with white balance. - Great Photos with Your Digital SLR 60-minute DVD: This live-action tutorial demystifies digital shooting, and shows how to compose photos; choose the best picture-quality settings; improve results with the built-in flash; and interpret your histogram. Plus, see when to trust your camera's automatic settings...or change them yourself. - Quick Reference Wallet Card: This laminated take-along is an ideal in-the-field key to camera and menu operations. There's nothing else like this on the market!

Introducing a statutory register of lobbyists

The Video Game Industry provides a platform for the research on the video game industry to draw a coherent and informative picture of this industry. Previously this has been done sparsely through conference papers, research articles, and popular science books. Although the study of this industry is still stigmatized as frivolous and 'only' game oriented, those who grew up with video games are changing things, especially research agendas, the

acceptance of studies, and their interpretation. This book describes and defines video games as their own special medium. They are not pinball from which they grew, nor movies which they sometimes resemble. They are a unique form of entertainment based on meaningful interactions between individuals and machine across a growing sector of the population. The Video Game Industry provides a reference foundation for individuals seriously interested in the industry at the academic level. As a result, this book will serve as a reference in curricula associated with video game development for years to come.

The Independent
