The Middle Ages were a period of tremendous cultural and scientific advancement in the Islamic Empire—ideas and inventions that shaped our world. Did you know that:

- The numbers you use every day (Arabic numerals!) are a Muslim invention?
- The marching band you hear at football games has its roots in the Middle East?
- You are drinking orange juice at breakfast today thanks to Islamic farming innovations?
- The modern city's skyline was made possible by Islamic architecture?

The Muslim world has often been a bridge between East and West, but many of Islam's crucial innovations are hidden within the folds of

Australia's military consistently punches above its weight, and its approach to leadership is the key to its success. Developed over a century ago by fusing national values with battlefield imperatives, its approach has been fine-tuned over generations. It is now an

adaptable and egalitarian leadership culture that ticks all the boxes for best practice. The military assumes no-one is born a natural leader, and that good training makes good leaders. Drawing on his own long military career and defence training programs, and on research, Nick Jans has identified the core principles of this consistently successful approach to leadership. These '3Rs' are the leadership skills which generate loyalty and commitment at an operational level, and they are just as successful in everyday team management as they are in the field. Leadership Secrets of the Australian Army includes real stories from the field and from workplaces, from everyday employees and from well-known leaders. It shows how you too can become a leader your team can believe in, and-equally importantly-how you can help them believe in themselves. 'Read it and be wise.'
