Sustainability Algonquin Books

Nina Raine's *Tiger Country* is a hospital play that follows a tangle of doctors and nurses in a busy London hospital - from the award-winning author of *Tribes*. Professionalism and prejudice, turbulent staff romances, ambition and failure collide in this swirling, action-packed drama about an overburdened health service that we all depend on and the dedicated individuals that keep it going. 'Tiger country' is where animal instinct stirs and an irrefutable eye opens. Where we make eye contact with the unknown. *Tiger Country* was premiered at Hampstead Theatre in 2011 and, following its sell-out run, was revived there in 2014.

Island of the Lost Cornell University Press
SELF: A Study in Ethics and

Endocrinology considers the psycho-physical mechanisms and reactions in human nature and destiny. This book is composed of seven chapters and begins with a description of the complexity of human body and mind, specifically their physical basis and nature of functioning. These topics are followed by a presentation on the issues of homosexuality and hermaphroditism in human, as well as the role of endocrine system in these issues. The discussion then shifts to the psychiatric and psychological aspects of diverse human personality. A chapter examines the psychological distinction between male and female mind functioning. The last chapter focuses on the central problem of human

ethics, the so-called "free will". This book will prove useful to psychologists, psychiatrists, and research workers who are interested in human nature.

Windows 98 Programming Bible John Wiley & Sons

Assesses Merleau-Ponty's contribution to ethics as calling for a poetic interplay between perception and imagination, and between silence and solidarity, that reveals our place in the world, and our obligations to ourselves and others. Before his death in 1961, Merleau-Ponty worried about what he saw as humanity's increasingly self-enclosed and manipulative way of experiencing self, others, and the world the consequences of which remain apparent in our destructive inability to connect with others within and across cultures. In *Merleau-Ponty and the Face of the World*, Glen A. Mazis provides an overall consideration of Merleau-Ponty's philosophy that brings out what he sees as a corrective prescription for ethical reorientation that is fundamental to Merleau-Ponty's thought. Mazis begins by analyzing the key role that silence plays for Merleau-Ponty as a positive, powerful presence rather than a lack or emptiness, and then builds on this to explore the ethical significance of the face-to-face encounter in his thought as one of solidarity rather than obligation. In the last part of the book, Mazis traces the development of what he calls

physiognomic imagination in Merleau-Ponty's work. This understanding of imagination is not fancy or make-believe, but rather brings out the depths of perceptual meaning and leads to an appreciation of poetic language as the key to revitalizing both ethics and ontology. Drawing on Merleau-Ponty's published works, lecture notes, unpublished writings, and the work of many phenomenologists and Merleau-Ponty scholars, Mazis also offers incisive readings of Merleau-Ponty's work as it relates to that of Antoine de Saint-Exupéry, Gaston Bachelard, and Emmanuel Levinas.

Recipes 2001 Hodder Education
Sacred sites offer believers the possibility of communing with the divine and achieving deeper insight into their faith. Yet their spiritual and cultural importance can lead to competition as religious groups seek to exclude rivals from practicing

potentially sacrilegious rituals in the hallowed space and wish to assert their own claims. Holy places thus create the potential for military, theological, or political clashes, not only between competing religious groups but also between religious groups and secular actors. In *War on Sacred Grounds*, Ron E. Hassner investigates the causes and properties of conflicts over sites that are both venerated and contested; he also proposes potential means for managing these disputes. Hassner illustrates a complex and poorly understood political dilemma with accounts of the failures to reach settlement at Temple Mount/Haram el-Sharif, leading to the clashes of 2000, and the competing claims of Hindus and Muslims at Ayodhya, which resulted in the destruction of the mosque there in 1992. He also addresses more successful compromises in Jerusalem in 1967 and Mecca in 1979. Sacred sites, he contends, are particularly prone to conflict because they provide valuable resources for both religious and political actors yet cannot be divided. The management of conflicts over sacred sites requires cooperation, Hassner suggests, between political leaders interested in promoting conflict resolution and religious leaders who can shape the meaning and value that sacred places hold for believers. Because a reconfiguration of sacred space requires a confluence of political will, religious authority, and a window of opportunity, it is relatively rare. Drawing on the study of religion and the study of politics in equal measure, Hassner's account offers insight into the often-violent dynamics that come into play at the places where religion and politics collide.

The Basics of Bitcoins and Blockchains "O'Reilly Media, Inc." Tick, tick, tock. Time. That's all I have now. A small room, a photograph, and time. They want me to trust them and confess my sins. They told me they wouldn't judge me—they lied. I thought we could convince the world that this wasn't a

crime. We were wrong. Time doesn't stand still. The clock keeps ticking, the world is unconvinced, and now... Now he is gone.

You Have To Stop This AI

Reynolds

Do you want to finally, conclusively, and at (very) long last, learn the Secret? Are you REALLY sure? Because now's your chance to escape... No? You're staying put? Have you any idea of what lies between these perilous pages? (How could you? ... except perhaps if you were to smell that faint aroma of musty mummy, or catch a glance of the deviously despicable Lord Pharaoh). Well, if you really want to learn the Secret I suppose you'll HAVE to read this. But you won't like it. The fifth and final fantastical adventure in the 'Secret' series in which Cass, Max-Ernest and Yo-Yoji are accused of stealing a very-valuable-and-not-to-be-touched ancient Egyptian mummy from the local museum. They are determined to clear their names, but after getting accidentally trapped in a crate with a mummified cat, the three youngest members of the Terces society unwittingly find themselves on their way to the great pyramids of...Las Vegas. Amongst the dusty corridors of the Cairo Hotel and mysterious hieroglyphs of the Nile Nail Salon, Cass draws ever closer to uncovering the Secret...

Beautiful Flower Ladies' Home Journal Books

Go on an adventure and build a roguelike from scratch using JavaScript. With the help of the battle-tested Phaser library, you 'll go through all the steps to build a small, fun, playable web roguelite game. The author will guide you on how to add further features to the game such as populating the game with enemies, adding treasures, and so on. You will acquire technical knowledge about procedural generation and tile-based mapping as well as learn game design skills such as what makes dungeons fun and how to evoke an emotion in your game. Roguelikes are very popular with indie developers because of their focus on gameplay over graphics. You 'll see why they appeal to

game designers on a budget and discover that they serve as a good platform to experiment with novel ideas and designs. Along the way, you 'll cover the increasingly popular roguelite genre that provides a hyper casual form of the genre that is approachable and often mobile. After reading this book, you 'll be ready to create your own roguelikes, to dive deep into procedural generation, and also to bring some of the techniques shown here into other genres and game projects. What You Will Learn Make use of procedural generation for dungeons, mazes, monsters, and treasure Pick up skills to use Phaser to build games Implement turn-based mechanics Use tile-based graphics Who This Book Is For Game developers who want to build something fun and who have at least some prior JavaScript programming experience. Arduino Microcontroller Processing for Everyone! John Wiley & Sons Can drinking coffee help people live longer? What makes a stock 's price go up? Why did you get the flu? Causal questions like these arise on a regular basis, but most people likely have not thought deeply about how to answer them. This book helps you think about causality in a structured way: What is a cause, what are causes good for, and what is compelling evidence of causality? Author Samantha Kleinberg shows you how to develop a set of tools for thinking more critically about causes. You 'll learn how to question claims, identify causes, make decisions based on causal information, and verify causes through further tests. Whether it 's figuring out what data you need, or understanding that the way you collect and prepare data affects the conclusions you can draw from it, Why will help you sharpen your causal inference skills.

Images of Postmodern Society Apress By using a series of studies of contemporary mainstream Hollywood movies - "Blue Velvet, Wall Street, Crimes and Misdemeanors, When Harry Met Sally, Sex Lies and Videotape, Do the Right Thing "- Norman Denzin explores the tension between ideas of the postmodern, and traditional ways of analyzing society. The discussion moves between two forms of text: social theory and cinematic representations of contemporary life. Denzin analyzes the ideas of society embedded in poststructuralism, postmodernism, feminism, cultural studies and Marxism through the ideas of key theorists like Baudrillard, Barthes, Habermas, Jameson, Bourdieu and Derrida. He relates these to the problematic of the postmodern self as exposed in cinema centering on the decisive performance of race, gender and class.

Teenage Girls Talk about Ableism and Sexism in School EverAfter Romance When you see a ray of light in darkness, not only does it gives you hope but it also shows a ray of new life. But what if that very small ray is another path to darkness? Herold was the light in my dark life, but after losing him I'm engulfed by darkness all over again. His death destroyed me. I left all my dreams, my friends and my life for him. No matter how hard I tried to move on he still lived in my memories. But meeting Alex was something I never expected. He came as a tenant in my house but yet whenever I was with him I felt this familiar pull towards him. It was like I have known him for a long time. But things took great turns between us. He made me laugh. He made me alive. He even made me fall in love again. But not everything lasts forever. Soon all these happiness wrecked my life like a hurricane when truth came into light. I was destroyed again when reality hit me. Everything that I have been through, everything I have felt...it was all a lie. I lost belief in love and trust. But what do you do when you have become so connected with the darkness that the ray of light you always looked for now scares you? When this very light endangers everyone you love? I should have never walked through this path of dark love knowing I will be destroyed again. But at the end somehow this dark love freed me.

Residential Building Codes Illustrated
London : V. Gollancz

The book offers a comprehensive account of how humor works in short stories, by presenting a model of narrative comedy that is pragmatically as well as semantically, grammatically and stylistically informed. It is the first study to combine a sequential analysis of the comic short story with a hierarchical one, merging together horizontal and vertical narratological perspectives in a systematic way. The book covers the main areas of linguistic analysis and is deliberately interdisciplinary, using input from philosophy, sociology and psychology so as to touch upon the nature, motivations and functions of humor as a cognitive phenomenon in a social context. Crucially, The Language of Comic Narratives combines a scholarly approach with a careful explanation of key terms and concepts, making it accessible to researchers and students, as well as non-specialists. Moreover, it reviews a broad range of historical critical data

by examining the source texts, and it provides many humorous examples, from jokes to extracts from comic narratives. Thus, it seeks to anchor theory in specific texts, and also to show that many linguistic mechanisms of humor are common to jokes and longer, literary comic narratives. The book tests the model of humorous narratives on a set of comic short stories by British and American writers, ranging from Evelyn Waugh and Dorothy Parker, through Graham Greene and Corey Ford, to David Lodge and Woody Allen. The validity of the model is confirmed through a subsequent discussion of apparent counter-examples.

Silence, Ethics, Imagination, and Poetic Ontology Elsevier

Reasoning, reading and language arts program designed to help children develop cognitive skills in a sequenced yet cumulative manner.

Whether it's John Deere, International Harvester or AGCO, Warman's Farm Toys Field Guide satisfies collectors' need to reliable details, in a portable format. This brilliantly illustrated guide delivers more than 500 color photos of powerful machines in small-scale splendor. Inside this toy show companion collectors will discover: & break;& break; Collector values for farm toys made in the early 1900s through the 1990s which make buying and selling in the 5,000+ active online

auctions easier

& break;& break; Detailed and concise listings provide quick and accurate identification & break;& break; Reliable expert information based on the successful big book, Standard Catalog of Farm Toys, 2nd Edition, with nearly \$100,000 in sales & break;& break; This book is a smart investment for fans of farm toys and experienced collectors and an affordable gift display along with your favorite farm toys.

Pixie Peter Lang

Life has gotten a bit boring for Zuria Johnston, and with the exception of her Friday nights out with her best, flamboyant friend, Chase, and her job as a guidance counselor, she seems to have hit a rut. After a rough break-up with her longtime boyfriend, Manuel, her prospects of finding a man also seem pretty bleak. That is, until she connects with her poetic crush, Amir, and he opens her eyes to a world of romance and passion that she didn't know existed. She discovers what it feels like to be loved as a real woman should, and to overcome the difficulties of being a young, strong, black woman who is afraid to have her heart broken for a second time. The thrill of new romance seems to fill the emptiness in her life, but her old life isn't as easy to escape as she first thought. Mistakes that she thought she had left behind threaten to undo everything that she has begun to build in this new chapter of her life, but she isn't the only one battling the demons of her past. The poetic and passionate Amir harbors some dark secrets of his own, and when the truth begins to come out, the connection between her two lovers, old and new, may end her short reign of happiness before it ever fully begun. With love from one man and sworn vengeance from another, Zuria is trapped in the middle, trying desperately to make her way through the tangled troubles of family, love, and happiness. The problem is, she might lose more than the man of her dreams. As this complex and spellbinding story reaches its peak, Zuria will have to risk mind, body, and soul for herself and the people she loves, but will that final risk mean achieving the life she'd always dreamed of? Or will she end up making the ultimate sacrifice? Freed (Dark Love Duet #2) Harper Collins

A seasonally appropriate anthology of poems about the deadly art of murder ranges from old Scottish ballads to hard-boiled 20th-century noir and includes depictions of colorful villains and victims

as immortalized by such writers as Browning, Hardy and Auden. Electrical Engineering Manual Mosby Incorporated

An easy-to-use illustrated guide to building codes for residential structures As the construction industry moves to a single set of international building codes, architects and construction professionals need an interpretive guide to understand how the building code affects the early design of specific projects. This newest addition to Wiley ' s series of focused guides familiarizes code users with the 2009 International Residential Code® (IRC) as it applies to residential buildings. The book provides architects, engineers, and other related building professionals with an understanding of how the International Residential Code was developed, and how it is likely to be interpreted when applied to the design and construction of residential buildings.

- User-friendly visual format that makes finding the information you need quick and easy
- The book ' s organization follows the 2009 International Residential Code itself
- Nearly 900 illustrations, by architectural illustrator Steven Juroszek in the style of noted illustrator and author Frank Ching, visualize and explain the codes
- Text written by experienced experts who have been instrumental in gaining acceptance for the new unified building code

This book is an essential companion to the IRC for both emerging practitioners and experienced practitioners needing to understand the new IRC.
