Too often both composition teachers and their students experience knowledge and authority as lying outside their rhetorical interactions with others. Drawing on feminist, cultural, and poststructuralist theory, as well as work in the rhetorical tradition and composition studies, Hill offers less debilitating methods of thinking that teachers can model for their students. Richly illustrated with examples of classroom interactions and student work, the book also shows teachers how to enrich their own intellectual and political lives within the academy.

A spirited artist with a can-do attitude, Yvonne Wakefield naively leaves behind a secure life in the lush Pacific Northwest to teach art in the desert state of Kuwait. Over the course of six years, she will instruct university aged Muslim women, earn her student's trust, and learn the consequences of freedom of expression, taken for granted in one culture but not granted in another. Despite obstacles set by her detractors, she persists, and she and her students flourish. Yet the traps never disappear, only multiply as others set more for her, intent on denying what they have no desire to understand. Told from the unique perspective of an artist, Suitcase Filled with Nails is a colorful, true, and timely tale about living and coping in the Middle East.

Mouse Models of Cancer Hodder Education SQL Guide for Microsoft Access **OCR Information & Communication Technology GCSE** Bentley Pub "Le Corbusier, who famously called a house 'a machine for living,' was fascinated—even obsessed—by another kind of machine, the automobile. His writings were strewn with references to autos ... In his 'white phase' of the twenties and thirties, he insisted that his buildings be photographed with a modern automobile in the foreground. Le Corbusier moved

beyond the theoretical in 1936, entering

(with his cousin Pierre Jeanneret) an automobile design competition, submitting plans for 'a minimalist vehicle for maximum functionality,' the Voiture Minimum. Despite Le Corbusier's energetic promotion of his design to several important automakers, the Voiture Minimum was never mass-produced. This book is the first to tell the full and true story of Le Corbusier's adventure in automobile design. Architect Antonio Amado describes the project in detail, linking it to Le Corbusier's architectural work, to Modernist utopian urban visions, and to the automobile design projects of other architects including Walter Gropius and Frank Lloyd Wright. The story is supported by many images and documents, including architects' favorite cars, sketches and models of the Voiture Minimum, and copies of Le Corbusier's correspondence with prospective manufacturers."--Jacket.

Red Queen Voyager

When attorney Riley Harper comes home to Maple Ridge following the death of his grandfather, the last thing he expects to find is Kaylee McKenna living in his grandparents' guesthouse. Though he and Kaylee were once best friends, Riley cannot find it in his heart to forgive her for the death of his mother. His heart, full of bitterness and resentment, has room for little else. Kaylee has no time to dwell on events of the past, especially where Riley's concerned; she's too busy raising her six-year-old niece, Rosie, and working as an ER nurse. With Christmas quickly approaching, her days are spent helping with charity events and filling the wishes on Rosie's Christmas list. But when Rosie's father makes an unexpected visit, Kaylee must call on Riley's legal expertise to ensure Rosie of a safe and secure future. Will Rosie's special Christmas wish heal Riley's damaged heart and bind the trio together as a forever-family?
