Of all the PE exams, more people take the civil than any other discipline. The eight-hour, open-book, multiple-

choice exam is given every April and October. The exam format is breadth-and-depth -- all examinees are tested on the breadth of civil engineering in the morning session; in the afternoon, they select one of five specialties to be tested on in-depth. Our civil PE books are current with the exam; they reflect the new format, and they reference all the same codes used on the exam. Quick Reference, which facilitates finding formulas during the exam; and subject-specific reviews on the complex areas of bridge and timber design. -- Organizes all important formulas for fast

access during the exam --

This book provides a broad overview of the many card systems and solutions that are in practical use today. This new edition adds content on RFIDs, embedded security, attacks and countermeasures, security evaluation, javacards, banking or payment cards, identity cards and passports, mobile systems security, and security management. A step-by-step approach educates the reader in card types, production, operating systems, commercial

applications, new technologies, security design, attacks, application development, deployment and lifecycle management. By the end of the book the reader should be able to play an educated role in a smart card related project, even to programming a card application. This book is designed as a textbook for graduate level students in computer science. It is also as an invaluable post-graduate level reference for professionals and researchers. This volume offers insight into benefits and pitfalls of diverse industry, government, financial and logistics aspects while providing a sufficient level of technical detail to support

technologists, information security specialists, engineers and researchers.

Their passion burns white hot. But danger

is heartless and cold. Hot Desert Heroes, Book 1 Delaney Murphy has had a stomach-fluttering, mouth-watering crush on Beck since the first time she saw him over the rim of her regular morning latte. But she's never been long on self-confidence, especially around exceptionally handsome men. After a year of avoiding him, she's shocked when he slides into the next chair and wears down her resistance to a first date. When Laney is laid off from her job, Marines special ops veteran Beck "Gravedigger" Townsend wastes no time hiring the quiet, auburn-haired beauty into Red Eagle Group, his security firm. Keeping her within touching distance-and

under his protection. Laney's smile and sharp intelligence light up Beck's life and heat up his bed, yet he hesitates to give her what she really wants: full access to the darkest corners of his wounded spirit. But when danger is delivered right to Red Eagle's door, the only way to save her-and their love-will be to bleed. Body and soul... Warning: Adult language and graphic sex scenes between a man locked behind his secrets, and a woman ready to break free of her past. If you think the desert is hot, you ain't seen nothin' yet.
