Whether it's a big-bore, high-end custom sportbike you're after, or a naked, bare knuckles streetfighting drag racer, this book has the goods for getting you there. In three different scenarios, the nation's top builders give blow-by-blow instructions for completely rebuilding three popular streetbikes -- from performance modifications and exhaust systems to flawless finishes and detail work. Focusing on highly customized Hayabusa drag bikes, including a slammed and lowered Suzuki GSX1300R Hayabusa, John Dantzler of the Charlotte, North Carolina, shop Two Wheel Customs outlines the suspension and engine modifications that the serious street and quarter-mile racer can make. He takes a salvaged, late-model four-cylinder street machine and transforms it into the kind of machine that both professional stunt riders and corner-carving enthusiasts favor. Next, author Mike Seate covers the details on constructing and installing popular modifications -- everything from engine crash guards and wheelie bars to motocross-style handlebars and bikini fairings -- while stunt riders and streetfighter builders from the United States and Europe weigh in with tips and advice. Last but not least, the builders at Wisconsin's Patrick's Performance and South Carolina's Coastal Motorcycles provide a step-by-step account of the construction of two high-end custom sportbikes -- transforming a Yamaha YZF R-1 and a Suzuki GSX-R 1000 into the kind of machines that are eye-popping everywhere on the streets or on the motorcycle show circuit.

Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

This report describes the background of the Association of Research Libraries Microform Project and summarizes results of the survey from which the database of the project's clearinghouse on the bibliographic control of microforms has been constructed. The Microform Project was established in 1981 to assist libraries,

microform publishers, and the bibliographic utilities in their efforts to achieve bibliographic access to titles in microform sets. The primary tool in providing this assistance is a Microform Cataloging Clearinghouse, the main purposes of which are to facilitate the cataloging of titles in microform sets and prevent duplication of effort. The clearinghouse database is based on the results of a survey sent to participants in the four major bibliographic utilities as well as the few major libraries that do not participate in them. The 535 useful survey returns which were received show that a large number of libraries catalog titles in microform sets and that most of them create machine-readable records for at least some of the sets they catalog. A copy of the survey questionnaire and additional information on the survey and the clearinghouse are appended. (DMC)

Rugged Gentlemen will not answer all the questions that surface in our parenting. I do trust it to open the awareness of simple things, which when done daily, and with a hefty dose of love, will become a starting point to recreate a society determined to develop a healthy mentality of empathy as we learn to fight a growing society rife with self-centered, potentially narcissistic adults. I intend to build an awareness of what lies before us if we continue to turn our heads and to participate in developing a new attitude: proudly show we focus more on the kind of children we are leaving the

Rayne, Sagan, Tameka, Kyle, and Andrew adjust to life in the apocalypse. Having failed to prevent it, they must pull their resources to turn back the tide and save Earth. This isn't going to be easy. They need to combine resistance forces, amass an army, and earn their place in the galactic-wide effort to stop the King of Cinder before he can further spread devastation. Somewhere in there, they need to convince Enki to grant them naces and technological aid to combat the extremely advanced Night Army. This presents its own set of obstacles for them to overcome. Luckily Xelan and The Brethren are there to help along the way. Recover. Regroup. Resist. This is the only way. Can they encourage humanity to rise against the Icarean invasion and convince Enki there may be another way than pure annihilation? Or will Nox's threat on the Progeny, the Earth, and the galaxy prove too strong to oppose?
