In the tradition of international bestsellers, *Future Shock* and *Megatrends*, Michael J. Saylor, CEO of MicroStrategy, brings *The Mobile Wave*, a groundbreaking analysis of the impact of mobile intelligence -- the fifth wave of computer technology. The *Mobile Wave* argues that the changes brought by mobile computing are so big and widespread that it's impossible for us to see it all, even though we are all immersed in it. Saylor explains that the current generation of mobile smart phones and tablet computers has set the stage to become the universal computing platform for the world. In the hands of billions of people and accessible anywhere and anytime, mobile computers are poised to become an appendage of the human being and an essential tool for modern life. With the perspective of a historian, the precision of a technologist, and the pragmatism of a CEO, Saylor provides a panoramic view of the future mobile world. He describes how: A Harvard education will be available to anyone with the touch of a screen. Cash will become virtual software and crime proof. Cars, homes, fruit, animals, and more will be tagged so they can tell you about themselves. Buying an item will be as easy as pointing our mobile device to scan and pay. Land and capital will become more of a liability than an asset. Social mobile media will push all businesses to think and act like software companies. Employment will shift as more service-oriented jobs are automated by mobile software. Products, businesses, industries, economies, and even society will be altered forever as the Mobile wave washes over us and changes the landscape. With so much change, *The Mobile Wave* is a guidebook for individuals, business leaders, and public figures who must navigate the new terrain as mobile intelligence changes everything.

Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously. Despite his intense eroticism, subversion and, as Cecil Beaton

described, 'his grotesque little gamines', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era - glamorous, hard-edged, cleverly spiced with vulgarity.. rich with implied narratives and strong erotic undercurrents'

As John Casti wrote, "Finally, a book that really does explain consciousness." This groundbreaking work by Denmark's leading science writer draws on psychology, evolutionary biology, information theory, and other disciplines to argue its revolutionary point: that consciousness represents only an infinitesimal fraction of our ability to process information. Although we are unaware of it, our brains sift through and discard billions of pieces of data in order to allow us to understand the world around us. In fact, most of what we call thought is actually the unconscious discarding of information. What our consciousness rejects constitutes the most valuable part of ourselves, the "Me" that the "I" draws on for most of our actions-fluent speech, riding a bicycle, anything involving expertise. No wonder that, in this age of information, so many of us feel empty and dissatisfied. As engaging as it is insightful, this important book encourages us to rely more on what our instincts and our senses tell us so that we can better appreciate the richness of human life.

**The Thing in the Forest (Storycuts)** Whitaker House

This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

Beccy Cole's inspirational memoir from the heart of Australian country music. Beccy Cole has country music in her blood. Daughter of a country music star, Carole Sturtzel, she is one of the most popular country singer-songwriters in Australia today. This is the story of her life - in her own words. At fourteen, Beccy was performing in her mother's group, Wild Oats. By her late teens, Beccy had teamed up with the Dead Ringer Band - Kasey Chambers' family band - and had attracted the attention of the country music world by winning the Star Maker quest: the same award that started the careers of Keith Urban, Lee Kernaghan, James Blundell and Gina Jeffreys. It was just the first of many awards and accolades for this multitalented woman with a big heart. With refreshing candour, Beccy shares her story: leaving everything she knew to pursue her dream, making a name for herself with her own band; her marriage and motherhood; her subsequent divorce, becoming a single mother and maintaining the nurturing love of family. Performing for the Australian troops in Afghanistan. Coming out, and what it has meant for her and her fans. Taking control of her own life - and finding love. Heartfelt and honest, *Poster Girl* is the inspirational memoir of a strong woman who epitomises the authentic spirit of country music, and of Australia.

It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the *European Journal of Social Work*.

*The Ruins of Us* is a compelling, timely debut novel that explores the loneliness of expatriate life and the dangers of intolerance, as well as the things we'll do for love. More than two decades after moving to Saudi Arabia and marrying powerful Abdullah Baylani, American-born Rosalie learns that her husband has taken a second wife. That discovery plunges their family into chaos as Rosalie grapples with leaving the country, her life, and her family behind. Meanwhile, Abdullah and Rosalie's consuming personal entanglements blind them to the crisis approaching their sixteen-year-old son, Faisal, whose deepening resentment toward their lifestyle has led to his involvement with a controversial sheikh. When Faisal makes a choice that could destroy everything his embattled family holds dear, they all must confront difficult truths as they fight to preserve what remains of their world. *The Ruins of Us* is a timely story about intolerance, family, and the injustices we endure for love that heralds the arrival of an extraordinary new voice in contemporary fiction.

Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides, Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

From M & Ms to Post – It Notes, a charming and insightful collection of design marvels from everyday life, celebrated by the curator of the MoMA's department of architecture and design. Every day we use dozens of tiny objects, from Post – It notes to Band – Aids. If they work well, chances are we do not pay them much attention. But although modest in size and price, some of these objects are true masterpieces of the art of design. Paola Antonelli, curator of the Museum of Modern Art's Department of Design and Architecture, is a highly celebrated figure in the world of design (she was just ranked among the top 100 most powerful people in the world of art). Paola has long been passionate about the subject of everyday objects that are marvels of design. The response to her recent MoMA show, also called Humble Masterpieces, was electric. In addition to lively coverage in dozens of publications, the museum goes spread the word about the fun of learning about and nominating their own picks for humble masterpieces. Now, in this colorful visual feast, Antonelli chooses 100 fabulous objects, from Chupa Chup lollipops to Legos to Chopsticks and Scotch tape. Each object will be portrayed with a gorgeous close – up detail, a brisk and informative text on its origin and special design features, as well as a silhouette image of the object as we see it each day. Certain to appeal to a broad audience, and to lend itself to fun, creative promotional opportunities, Humble Masterpieces will celebrate the possibility of looking at our everyday lives in an all – new way.
