What does it mean to be a conservative in an age so sceptical of conservatism? How can we live in the presence of our 'canonized forefathers' at a time when their cultural, religious and political bequest is so routinely rejected? With soft left-liberalism as the dominant force in Western politics, what can conservatives now contribute to public debate that will not be dismissed as pure nostalgia? In this highly personal and witty book, renowned philosopher Roger Scruton explains how to live as a conservative in spite of the pressures to exist otherwise. Drawing on his own experience as a counter-cultural presence in public life, Scruton argues that while humanity might survive in the absence of the conservative outlook, it certainly won't flourish. How to be a conservative is not only a blueprint for modern conservatism. It is a heartfelt appeal on behalf of old fashioned decencies and values, which are the bedrock of our weakened, but still enduring civilization.

The Oxford Anthology of the Brazilian Short Story contains a selection of short stories by the best-known authors in Brazilian literature from the late nineteenth century to the present. With few exceptions, these stories have appeared in English translation, although widely separated in time and often published in obscure journals. Here they are united in a coherent edition representing Brazil's modern, vibrant literature and culture. J.M. Machado de Assis, who first perfected the genre, wrote at least sixty stories considered to be masterpieces of world literature. Ten of his stories are included here, and are accompanied by strong and diverse representations of the contemporary story in Brazil, featuring nine stories by Clarice Lispector and seven by Jo?o Guimar?es Rosa. The remaining 34 authors include M?rio de Andrade, Graciliano Ramos, Osman Lins, Dalton Trevisan, and other major names whose stories in translation exhibit profound artistry. The anthology is divided into four major periods, "Tropical Belle-?poque," "Modernism," "Modernism at Mid-Century," and "Contemporary Views." There is a general introduction to Brazilian literary culture and introductions to each of the four sections, with descriptions of the authors and a general bibliography on Brazil and Brazilian literature in English. It includes stories of innovation (M?rio de Andrade), psychological suspense (Graciliano Ramos), satire and perversion (Dalton Trevisan), altered realities and perceptions (Murilo Rubi?o), repression and sexuality (Hilda Hilst, Autran Dourado), myth (N?lida Pi??n), urban life (Lygia Fagundes Telles, Rubem Fonescal), the oral tale (Jorge Amado, Rachel de Queiroz) and other overarching themes and issues of Brazilian culture. The anthology concludes with a haunting story set in the opera theater in Manaus by one of Brazil's most recently successful writers, Milton Hatoum.

The "water engine" is an invention unfortunately invented many times. Hydrogen from water is very abundant, renewable and can be used in both energy poor and rich countries. Crude oil and natural gas are limited energy resources. But there are many people who think that certain promising technologies have been suppressed by various political or economic powers, usually with the purpose of protecting their investments and interests and, at the already more absurd extremes of the conspiracy illogical, for sinister motivations of much greater scope. In this new work, the versatile composer and writer Van Jaag, accompanies us on an exciting journey through the history of this unknown invention and its invented inventors.
