This book is essentially bound as a Wire-O bound journal, with a hardback cover wrapping around the entire book, even the spine. This keeps the book in good shape for a long time, and also provides for optimum usability. The One True God is a unique kind of workbook, intending not

just to teach truth but to lead to an encounter with the living God. Beneath that goal the book aims to ground believers in orthodox Christian theology and the actual contents of the Bible. Students are encouraged to thoughtfully draw conclusions from the Scriptures rather than to merely absorb the principles, inferences, and illustrations set before them by the author. For this reason the book does not include such material and instead focuses on digesting the Scriptures directly. Through God's own words and under various systematic headings the book unfolds the nature of God. In this way the reader is set on a firm foundation and will readily perceive the centrality and high authority of biblical doctrine within the Christian life. It is the author's conviction that the study of doctrine is both an intellectual and devotional discipline. Therefore students are guided throughout the study to think through and apply the truths they learn, meditating on the demands of Scripture for their heart and mind. The book puts us squarely in the middle of the material and demands we give searching thought to how we will live before such a God. This workbook is especially suited for the following contexts: (1) doctrinal training for new converts; (2) college and adult group Bible studies; (3) private study; (4) Christian or home school curriculum; (5) Sunday school material; (6) an aid to parents in teaching the Word of God to their children.
