The automobile seems  
to be as popular now  
as it ever was.  
Posters of cars  
still adorn many a  
child's bedroom  
wall, and school  
exercise books are  
full of doodles of  
cars. This book  
takes those notebook  
sketches and teaches

you how to develop them into the car designs you see in magazines. Using simple to follow step-by-step drawings it guides you from pencil sketch to marker rendering, from doodle to highly visual computer generated artwork. Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses, modified motors to concept Formula 1 cars, using various techniques and styles. In this book, he uses his knowledge of the different styles to guide the reader in creating great artwork and designs of their own. The book shows in detail how to use

different materials and how to get the most out of each one, whether it be a great pencil sketch or a photo realistic vector illustration. The book also features an easy to follow index for quick reference on different types of drawing.
