For Cheryl Mendelson, laundering is the best part of housekeeping. It ' s full of physical pleasures—the look of favorite clothes restored to freshness and beauty, the tactile satisfaction of crisp linens in beautifully folded stacks. Good laundering preserves things you love and protects your pocketbook. It doesn ' t take much time or effort. What it takes is knowledge, and *Laundry* is the comprehensive, entertaining, and inspiring book on the art of laundering. Culled from the bestselling *Home Comforts*, with revised and updated

information and a new introduction, *Laundry* is an indispensable guide to caring for all the cloth in one ' s home: from kitchen rags to bedding, hand-washables, and baby clothes to vintage linens. Mendelson offers detailed guidance on when to disregard labels, removing stains, making environmentally informed choices, sewing, and storing clothing and fabrics. A much-needed antidote to the standard-issue how-to manual, *Laundry* celebrates the satisfactions of ironing, folding, and caring for clothes and linens. Both pragmatic and eloquent, Mendelson provides beginning and veteran homemakers with a seamless combination of reliable instruction, time-tested advice, and fascinating personal narrative. As a farm girl in Pennsylvania, Mendelson—who is a philosopher, lawyer, and professor, as well as a

homemaker, wife, and mother—received a classic domestic education from her grandmothers, aunts, and mother. *Laundry* combines the best of the traditional lore they taught her with the latest in technical and scientific information. Writing with infectious love and respect for her subject, Mendelson is sure to instill in readers a newfound affection and appreciation for the art of laundering.

Catalogue of the Public Documents of the [the Fifty-third] Congress [to the 76th Congress] and of All Departments of the Government of the United States Independently Published Excerpt from A Guide to Laundry-Work: A Manual for Home and School A High School girl who was studying chemistry at the same time that she took a course in laundry work found so many opportunities to apply her more formal laboratory science in her manual work that she once exclaimed enthusiastically to her teacher: "I think chemistry was made for laundry work!" Aside from its value as a correlation field for both physics and chemistry, laundry work is an excellent form of manual training for girls, offering, as it does, many of the advantages of the forge

work for boys. The rough garment, like the crude metal, has to be modeled by the application of heat and pressure; the iron must be the right temperature, the pressure must be skillfully applied, faulty parts must be gone over and over again until the right surface and texture is produced. Even the rougher cleansing processes, restoring the soiled linen to its original freshness and purity, may be made truly educative in fostering a love of dainty and perfect cleanliness - that outward sign of the inward grace of true refinement which forever distinguishes the gentlewoman. To the Home Maker Some people say laundry work is on its way out of the home, just as weaving and dyeing and other activities have wended their way out of the home and into the factory. Modern Consumer Law is a lively, concise, problem-focused text on contemporary consumer law. It is the only text on the market conceptualized after Dodd-Frank and its creation of the Consumer Financial Protection Bureau. The book takes a functional approach to consumer law, looking at types of transactions such as mortgages as well as kinds of laws such as disclosure rules. It examines core theoretical questions in an accessible way, revealing consumer law as a series of statutes built on the common law foundations of contract and tort. Organized into 28 class-sized assignments, the book is easy to adapt to a teacher's preferences in terms of focus and class credits. The problems provide students with the opportunity to apply statutes to realistic situations and ask them to consider the perspectives of consumers, businesses, and lawmakers. Katherine Porter is a national expert in consumer law and a co-author of Wolter Kluwer's The Law of Debtors and Creditors.
