people talking about a doomsday, or watched the TV show Domsday Preppers. We have heard people called "Preppers", or "What Iffers". People have been talking about some sort of "End of the World" scenario, for decades. Even the United States government has many bunkers around the country, some of which have been bought by ordinary citizens and even preppers. Some of us are concerned something may happen sooner than later. I have heard more and more people talking about the possibility of an imminent disaster. Some people worry about different possible scenarios. For example; economic collapse, societal collapse, civil unrest, electromagnetic pulse, weather destruction, war, fire, nuclear attacks, terrorist attacks, fuel shortages, pandemics, geomagnetic reversal, etc. Many people are preparing for these scenarios of which they are concerned. It is estimated in the United States of America, approximately ten percent of the population are Preppers to one degree or another. No one knows if or when, one or more problems will occur. There is no way to predict a specific occurrence or time factor, and my crystal ball broke, so I cannot help with your prognostication. The best we can do is to be prepared for any eventuality. This is why I personally (and many others) believe an underground concrete bunker is the best idea. As I will explain, this Bunker will give you the best protection possible for the most scenarios. One need not be a conspiracy theorist to be concerned. People may think "Doomsday Preppers", or "What Iffers", as we are often called, are "nut jobs." However, when TSHTF, we will be the ones who others will come to, since we will be prepared.

Mothering is messy. Our joy and hope in raising children doesn't change the reality that being a mom can be frustrating, stressful, and tiring. But just as God is using us to shape our children, God is using our children and motherhood to shape us. In *The Better Mom*, author Ruth Schwenk, herself a mother of four children, encourages us with the good news that there is more to being a mom than the extremes of striving for perfection or simply embracing the mess. We don't need to settle for surviving our kids' childhood. We can grow through it. With refreshing and heartfelt honesty Ruth emboldens moms to: Find freedom and walk confidently in purpose Create a God-honoring home environment Overcome unhealthy and destructive emotions such as anger, anxiety, and more Avoid glorifying the mess of mom-ing or idolizing perfection Cultivate life-giving friendships At the heart of *The Better Mom* is the message that Jesus calls us to live not a weary life, but a worthy life. We don't have to settle for either being apathetic or struggling to be perfect. Both visions of motherhood go too far. Ruth offers a better option. She says, "It's okay to come as we are, but what we're called to do and be is far too important to stay there! The way to becoming a better mom starts not with what we are doing, but with who God is inviting us to become."

Modern Consumer Law is a lively, concise, problem-focused text on contemporary consumer law. It is the only text on the market conceptualized after Dodd-Frank and its creation of the Consumer Financial Protection Bureau. The book takes a functional approach to consumer law, looking at types of transactions such as mortgages as well as kinds of laws such as disclosure rules. It examines core theoretical questions in an accessible way, revealing consumer law as a series of statutes built on the common law foundations of contract and tort. Organized into 28 class-sized assignments, the book is easy to adapt to a teacher's preferences in terms of focus and class credits. The problems provide students with the opportunity to apply statutes to realistic situations and ask them to consider the perspectives of consumers, businesses, and lawmakers. Katherine Porter is a national expert in consumer law and a co-author of Wolter Kluwer's *The Law of Debtors and Creditors*.

Both pragmatic and eloquent, Mendelson provides beginning and veteran homemakers with a seamless combination of reliable instruction, time-tested advice, and fascinating personal narrative. As a farm girl in Pennsylvania, Mendelson—who is a philosopher, lawyer, and professor, as well as a homemaker, wife, and mother—received a classic domestic education from her grandmothers, aunts, and mother. *Laundry* combines the best of the traditional lore they taught her with the latest in technical and scientific information. Writing with infectious love and respect

for her subject, Mendelson is sure to instill in readers a newfound affection and appreciation for the art of laundering.

DBT? Skills Training Manual, Second Edition

This book examines how fifty police officers in South Australia keep well and “bounce back” from duty-related traumatic experience in the absence of practical, accessible and timely organisational support. It investigates mechanisms police officers presently use to “normalise” their duty-related traumatic experiences to preserve the delicate professional balance between “coping” and “psychic numbing” and avoid the much publicised perils of a PTSD diagnosis, while being appropriately responsive to colleagues, victims and survivors in their daily work environment. By revealing how police officers manage trauma—outside of the expectations of mental health professionals, union representatives and police leadership—innovative approaches and

recommendations are offered to support first responders in moving from assumptions of post-traumatic stress and through post-traumatic growth. The book considers recent advances in post-traumatic growth and resilience theory and reinterprets exposure in a positive context, as well as preventative experiences in Australia and internationally.
