Microbial extracellular polymeric substances (EPS) are the key components for the aggregation of microorganisms in biofilms, flocs and sludge. They are composed of polysaccharides, proteins, nucleic acids, lipids and other biological macromolecules. EPS provide a highly hydrated gel matrix in which microbial cells can establish stable synergistic consortia. Cohesion and adhesion as well as morphology, structure, biological function and other properties such as mechanical stability, diffusion, sorption and optical properties of microbial aggregates are determined by the EPS matrix. Also, the protection of biofilm organisms against biocides is attributed to the EPS. Their matrix allows phase separation in biofiltration and is also important for the degradation of particulate material which is of great importance for the self purification processes in surface waters and for waste water treatment.

The Bible Promise Book - KJV

In times of doubt, fear, and loss, we turn to the songs and hymns that remind us that this world is not all there is--that what awaits us as followers of Jesus is a heavenly kingdom. Songs like "Face to Face," "Amazing Grace," "Heaven Came Down," "Victory in Jesus," and "I'll Fly Away." And behind every song about heaven is a story. So many were written amid circumstances of great personal pain on the part of the songwriter. And in sharing their story, we can find even more comfort in our own circumstances. Award-winning author Ace Collins offers this collection of 30 inspiring stories that provide hope for this world and insight into the next, painting a picture of eternal life filled with joy, peace, and happy reunions. This book is perfect for those who love the stories behind the great hymns of the faith as well as anyone who has experienced loss, and pastors, hospice workers, and counselors will find it the perfect pass-along for the grieving.
