"When bebop was new," writes Thomas
Owens, "many jazz musicians and most of
the jazz audience heard it as radical,
chaotic, bewildering music." For a nation
swinging to the smoothly orchestrated
sounds of the big bands, this
revolutionary movement of the 1940s
must have seemed destined for a short
life on the musical fringe. But today,
Owens writes, bebop is nothing less than
"the lingua franca of jazz, serving as the
principal musical language of thousands
of jazz musicians." In *Bebop*, Owens
conducts us on an insightful, loving tour
through the music, players, and
recordings that changed American
culture. Combining vivid portraits of
bebop's gigantic personalities with deft
musical analysis, he ranges from the
early classics of modern jazz (starting
with the 1943 Onyx Club performances of
Dizzy Gillespie, Max Roach, Oscar
Pettiford, Don Byas, and George
Wallington) through the central role of
Charlie Parker, to an instrument-by-
instrument look at the key players and
their innovations. Illustrating his
discussion with numerous musical
excerpts, Owens skillfully demonstrates
why bebop was so revolutionary, with

fascinating glimpses of the tempestuous
jazz world: Thelonious Monk, for example,
did "everything 'wrong' in the sense of
traditional piano technique....Because his
right elbow fanned outward away from his
body, he often hit the keys at an angle
rather than in parallel. Sometimes he hit a
single key with more than one finger, and
divided single-line melodies between two
hands." In addition to his discussions of
individual instruments and players, Owens
examines ensembles, with their
sometimes volatile collaborations: in the
Jazz Messengers, Benny Golson told of
how his own mellow saxophone playing
would get lost under Art Blakey's furious
drumming: "He would do one of those
famous four-bar drum rolls going into the
next chorus, and I would completely
disappear. He would holler over at me,
'Get up out of that hole!'" In this
marvelous account, Owens comes right to
the present day, with accounts of new
musicians ranging from the Marsalis
brothers to lesser-known masters like
pianist Michel Petrucciani. *Bebop* is a jazz-
lover's dream--a serious yet highly
personal look at America's most
distinctive music.
