Manual Handling Kogan Page Publishers  
Within the context of Industrial 4.0 and beyond, developing and managing the technologies and operations key to sustaining the success of manufacturing businesses is crucial, and the promotion of manufacturing-engineering education, training, and research is of vital importance. This book presents the proceedings of ICMR 2022, the 19th International Conference in Manufacturing Research, Incorporating the 36th National Conference in Manufacturing Research, held in Derby, UK, from 6 - 8 September 2022. For over two decades, ICMR has been the main manufacturing research conference held in the UK. Bringing together researchers, academics, and industrialists to share their knowledge and experience, the conference provides a friendly and inclusive platform for a broad community of researchers who share the common goal of making digital and advanced manufacturing as efficient and effective as possible. The theme of ICMR2022 is smart manufacturing. Of the 78 papers submitted, 58 were accepted for presentation after review and are included here. This represents an acceptance rate

---

of 72%. The book is divided into 8 sections: smart manufacturing; digital manufacturing; additive manufacturing; robotics and industrial automation; composite manufacturing and machining processes; product design, development and quality management; information and knowledge management; and decision support and production optimization. Exploring all core areas of digital and advanced manufacturing engineering, the book will be of interest to all those working in the field.

**Health and Safety at Work** Hodder Education

This book is an essential guide for all construction industry professionals, whose duty it is to preserve the health, safety and welfare of others by effective design and management. The authors describe the most common hazards of construction work and how to reduce the consequent risks. They explain the essential details of construction safety law, the organisational basis for implementing health and safety policies, and duties under current safety regulations. This edition has been fully revised to incorporate developments in construction methods and new legislative requirements.

Fundamentals of Operating Department Practice

Jessica Kingsley Publishers

This textbook has been thoroughly updated to cover the BTEC First Caring specifications which began in September 2003.

The City & Guilds Textbook: Plastering for Levels 1

and 2 Heinemann

The Employer's Handbook has established itself as a source of reliable, unambiguous guidance for all small- to medium-sized employers, clearly identifying the legal essentials and best-practice guidelines for effective people management. The book is a comprehensive source of hands-on advice on the increasingly complex legal framework now governing UK employment law, including guidelines on age discrimination legislation and the latest employment tribunal procedures. Coverage includes: recruitment, contracts, benefits, performance management, maternity and paternity rights, personnel records and data protection, terminating employment, and ensuring the health, safety and welfare of employees and pension obligations. It also provides access to a unique set of downloadable templates, forms and policy documents for dealing with key employment issues.

*Health and Safety at Work For Dummies* Routledge

'This book provides an essential resource for educators of clinical skills who want to utilise simulation based education to provide optimal learning opportunities for their students.' Andrew Bland, University of Huddersfield 'In this book, a team of experienced authors have put together a much needed text that takes an evidence-based, practical approach to skills development.' Lauren Mawson, University of Cumbria 'A really exciting new text.' Sarah Burden, Leeds

---

Metropolitan University Practice educators and mentors are now expected to have the skills and techniques needed to implement a 'learning skills through simulation' programme into established curricula, yet using simulation to teach - while of huge importance - requires careful and time-consuming planning. This valuable resource takes away some of that burden by providing clear, ready-made activities and guidance from leading practitioners in a range of fields, which healthcare and practice educators and mentors can use to enhance their teaching of all the essential and commonly-taught clinical and management skills and knowledge. Dedicated chapters, which all follow a defined step-by-step format, provide simulation scenarios, alongside facilitator guidance, which will help develop confidence in the teaching of key skills such as: - Drug administration - Conflict management - Infection control - Breaking bad news - Catheter and bowel care These scenarios and accompanying guidance can be used as a framework for teaching, promoting a greater understanding of the skill being taught, and providing a risk-free opportunity for the student to practice their clinical and managerial skills and judgement. BTEC National Sport Elsevier Health Sciences Mandelstam breaks this complex subject down into individual terms, then explains the

legal and practical implications of each term in plain language, enabling readers to explore specific issues quickly and concisely.

Employment Law for HR and Business Students  
Routledge

The only EAL approved textbook for the Level 2 Diploma in Electrical Installation (600/6724/X) Fully up-to-date with the 3rd Amendment of the 17th Edition IET Wiring Regulations Expert advice that has been written in collaboration with EAL to ensure that it covers what learners need to know in order to pass their exams Extensive online material to help both learners and lecturers Written specifically for the EAL Diploma in Electrical Installation, this book has a chapter dedicated to each unit of the syllabus.
