When the Supreme Court
overturned Louisville's local
desegregation plan in 2007,

the people of Jefferson County, Kentucky, faced the question of whether and how to maintain racial diversity in their schools. This debate came at a time when scholars, pundits, and much of the public had declared school integration a failed experiment rightfully abandoned. Using oral history narratives, newspaper accounts, and other documents, Tracy E. K'Meyer exposes the disappointments of desegregation, draws attention to those who

struggled for over five decades to bring about equality and diversity, and highlights the many benefits of school integration. K'Meyer chronicles the local response to *Brown v. Board of Education* in 1956 and describes the start of countywide busing in 1975 as well as the crisis sparked by violent opposition to it. She reveals the forgotten story of the defense of integration and busing reforms in the 1980s and 1990s, culminating in the response to the 2007 Supreme Court decision

known as Meredith. This long and multifaceted struggle for school desegregation, K'Meyer shows, informs the ongoing movement for social justice in Louisville and beyond.

A paranormal investigator and Old Louisville resident explores chilling reports of hauntings among the historic homes of the National Preservation District. The Louisville, Kentucky,

neighborhood known as Old Louisville is one of the country's largest National Preservation Districts and the largest Victorian-era neighborhood in the country. Beneath the balconies and terraces of the district's Gothic, Queen Anne, and Beaux Arts mansions, current residents trade stories about the strange and unexplained phenomena they encounter in their historic homes. When David Dominé moved into one of these houses, he dismissed local rumors of a resident poltergeist named

Lucy. But soon, disembodied footsteps and mysterious odors changed his mind. Now Dominé is one of Louisville's best-known investigators of paranormal phenomena. In *Phantoms of Old Louisville*, Dominé recounts a horrifying encounter at the Spalding Mansion and the long history of the kindly spirit Avery, who guards the iconic Pink Palace. These tales of things that go bump in the night not only reveal why Old Louisville is considered the "most haunted neighborhood

in America," but also help to preserve this historically and architecturally significant community.

The "Happy Birthday" had its origins in the Louisville kindergarten class of sisters Mildred Jane Hill and Patty Smith Hill. Named for King Louis XVI of France in appreciation for his assistance during the Revolutionary War, Louisville was founded by George Rogers Clark in 1778. The city has been home to a number of men and women who changed the face of American history.

President Zachary Taylor was reared in surrounding Jefferson County, and two U.S. Supreme Court Justices were from the city proper. Second Lt. F. Scott Fitzgerald, stationed at Camp Zachary Taylor during World War I, frequented the bar in the famous Seelbach Hotel, immortalized in *The Great Gatsby*. Muhammad Ali was born in Louisville and won six Golden Gloves tournaments in Kentucky. [Manual of the Free High Schools of Wisconsin](#) Many activists and writers have ascribed continuing racial segregation in American schools to a failure of will. In this view, forced transfers of students and other aggressive judicially mandated policies would lead to greater equality in education if only legislators and judges had the will to continue trying to make school districts conform to plans for redesigning schools and even American society. *Controls and Choices: The Educational Marketplace and the Failure of School Desegregation* provides a detailed examination of the nature of the educational marketplace, supported by historical evidence, to argue that school desegregation failed because it involved monopolistic efforts at redistributing opportunities. These efforts were fundamentally at odds with the self-interest of the families who had the greatest ability to make choices in the educational marketplace. The authors use the concept of the educational marketplace to explain how market-based attempts at school reform,

notably vouchers and charter schools, have grown out of the failure of desegregation and remain hampered by lack of recognition of how the schools really function as markets. Some additional key features of this book include: Gives a clear understanding of how schools function as markets Illustrates the argument with histories of specific school districts Links the history of school desegregation to school vouchers and charter schools Includes easy to read and interpret graphs and figures

Includes most up-to-date school population and census information
