Industrial design is a process of design applied to products that are to be manufactured through techniques of mass production. A key characteristic is that design precedes manufacture: the creative act of determining and defining a product's form and features takes place in

advance of the physical act of making a product, which consists purely of repeated, often automated, replication.

Making sense of it all: Smartphone specs and terms

explained By Adam Ismail July 23, 2017  
When shopping for a new smartphone, there are tons of questions you'll have racing through your mind.

*Amazon.com: HTC U12+ Factory Unlocked Phone - 6" Screen ...*

Once I'm used to Sense and the digital buttons, maybe I'll give it 5 stars. The phone is lightning fast compared to my old phone, charges faster, battery lasts longer, takes fantastic pictures, etc. I've been using HTC phones since the EVO and hope they keep making phones as I'm not a fan of Samsung.
