Used Car and Truck Book Dundurn

Read Diane McEachern's posts on the Penguin Blog. Protecting our environment is one of the biggest issues facing our planet today. But

how do we solve a problem that can seem overwhelming-even hopeless? As Diane MacEachern argues in Big Green Purse, the best way to fight the industries that pollute the planet, thereby changing the marketplace forever, is to mobilize the most powerful consumer force in the world-women. MacEachern's message is simple but revolutionary. If women harness the "power of their purse" and intentionally shift their spending money to commodities that have the greatest environmental benefit, they can create a cleaner, greener world. Spirited and informative, this book: - targets twenty commodities-cars, cosmetics, coffee, food, paper products, appliances, cleansers, and more-where women's dollars can make a dramatic difference; - provides easy-to-follow guidelines and lists so women can choose the greenest option regardless of what they're buying, along with recommended companies they should support; - encourages women to spend wisely by explaining what's worth the premium price some green products cost, what's not, and when they shouldn't spend money at all; and - differentiates between products that are actually "green" and those that are simply marketed as "ecofriendly." Whether readers want to start with small changes or are ready to devote the majority of their budget to green products, MacEachern offers concrete and immediate ways that women can take action and make a difference. Empowering and enlightening, Big Green Purse will become the "green shopping bible" for women everywhere who are asking, "What can I do?"

Kiplinger's Personal Finance Publications International

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026).

While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
