“This country's leading hell-raiser” (The Nation) shares his impassioned counsel to young radicals on how to effect constructive social change and know “the difference between being a realistic radical and being a rhetorical one.” First published in 1971 and written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute insistence on rational political discourse and adherence to the American democratic tradition.

You could be the target of a spell or curse and not even know it! All people, witches or not, are susceptible to these attacks. The difference: witches and magicians can do something about it. Now you can too. Protection & Reversal Magick is a complete how-to manual on preventing, defending, and reversing magickal attacks of any kind. You will learn to: Set up early-warning systems. Appease angry spirits through offerings. Perform daily banishings and make amulets that will prevent most attacks.

Make magickal "decoys" to absorb attacks against you  
Summon guardian spirits or gods for help. Bind, confuse, or expel a persistent enemy who will not leave you be. These techniques aren't just for Wiccans, either, but for ceremonial magicians, rootdoctors, witches, and anyone else who puts magick to a practical use. Like the cunning men and women of old, now you can defend yourself and your loved ones against even the strongest attacks!

Manual to Surrender Entirely to Young Virgin

We are in the midst of a powerful psychedelic renaissance. After four decades of hibernation, the promise of the psychoactive '60s--that deeper self-awareness, achieved through reality-bending substances and practices, will lead to greater external harmony--is again gaining a major following. The signs are everywhere, from the influence of today's preeminent psychedelic thinker Daniel Pinchbeck, to the renewed interest in the legacy of Terence McKenna, and to the upsurge of collective, inclusive (and overtly tripped-out) cultural phenomena like the spectacle of Burning Man. The Psychedelic Experience, created in the movement's early years by the prophetic shaman-professors Timothy Leary, Ralph Metzner, and Richard Alpert (Ram Dass), is a foundational text that serves as a model and a guide for all subsequent mind-expanding inquiries. In this wholly unique book, the authors provide an interpretation of an ancient sacred manuscript, The Tibetan Book of the Dead, from a psychedelic perspective. This volume describes their discoveries in broadening spiritual consciousness through a combination of Tibetan meditation techniques and psychotropic substances. As sacred as the text it reflects, The Psychedelic Experience is a guidebook to the wilderness of mind and an indispensable resource from the founding fathers of psychedelia. This edition includes an all-new introduction by Daniel Pinchbeck, author of 2012: The Return of Quetzalcoatl and Breaking Open the Head. "It is a book for the living as well as for the dying."

La biografía definitiva de Isabel la Católica, la reina que definió y consolidó las bases del imperio español en el siglo XV. En 1474, una mujer culta, inteligente y fervientemente religiosa de apenas veintitrés años ascendió al trono de Castilla, el reino más poderoso y extenso de España. Tenía por delante el considerable reto de gobernar una corte dominada por hombres y reformar uno de los principales reinos europeos acosado por el crimen, la corrupción y el violento faccionalismo político. En esta biografía definitiva, Giles Tremlett nos presenta a una controvertida mujer que consiguió cambiar el rumbo de la historia sacando a su país del oscurantismo medieval para dotarlo de las herramientas que lo convertirían en uno de los mayores imperios donde nunca se ponía el sol. Como sostiene Tremlett, Isabel la Católica es la reina más importante de la historia de Europa, y este libro por fin le hace justicia, con sus luces y sus sombras.

Aporta al profesorado todos los conocimientos y estrategias que necesita adquirir para llevar a cabo con éxito el modelo de aprendizaje inverso (flipped learning) que tan buenos resultados está dando a miles de profesores de todos los niveles educativos en el mundo. El libro es un manual de ayuda para docentes que quieren empezar a implementar metodologías de aula inversa en sus asignaturas. Aporta conocimientos básicos sobre el modelo de aprendizaje inverso, así como información relevante sobre las distintas metodologías y herramientas tecnológicas que pueden usarse en distintas asignaturas y áreas de conocimiento. Especialmente útiles son los capítulos en los que se explica cómo implementar las distintas

metodologías de fomento del estudio previo (Just-in-Time Teaching, Peer Instruction, Team Based Learning y PEPEOLA) y cómo lograr motivar a los alumnos a realizar el estudio previo mediante técnicas de marketing del modelo y de gamificación. También es de gran utilidad el capítulo sobre cómo analizar las respuestas de los alumnos tras la interacción con los materiales, a fin de conocer cuáles son sus intereses y dificultades reales; en el libro se muestran diversos modos de aprovechar este feedforward procedente de los alumnos para replantear las clases, teniendo en cuenta sus intereses y dificultades, proporcionándoles así el feedback que más necesitan. Finalmente, el libro presenta también resultados de experiencias de este modelo, llevadas a cabo con éxito en varias asignaturas universitarias de distintos grados.

DEVELOPED UNDER THE SHADOWS of the Egyptian temples, Hellenistic astrology is an ancient form of divination inherited from Mesopotamian wisdom traditions. Distilled in Græco-Roman antiquity, and refined in the fires of philosophy and astronomy, it forms the bedrock of traditional western astrology (while also bearing profound similarities to Jyotish or Vedic astrology). Drawing on a body of Greek texts that have remained largely untranslated for almost two-thousand years, Demetra George brings the contemporary practice of astrology back to its ancient roots. Scholar, translator, and practitioner, her work reveals the potent cosmological veins that bear the lifeblood of traditional astrology. Ancient Astrology in Theory and Practice is, in essence, a training manual for the study and practice of Hellenistic astrology. In two volumes, it provides the complete foundations and detailed dynamics of ancient chart-reading techniques. Each volume and each technique is richly illustrated with diagrams, example charts, and practical exercises. Volume 1: Assessing Planetary Condition In ancient cosmology, the planetary divinities symbolised the hierarchy of forces that shape our lives in the sublunary world. Not all planets are created equal in a given nativity, however, and so the first step of the practicing astrologer is to assess the condition of each planet in a

---

chart in order to determine its effectiveness (or lack thereof) in the native's life. To this end, this volume provides a series of rigorous methods for evaluating the condition of each planet in a birth chart through the lenses of classification (sect, gender, benefic/malefic), signs and rulerships (residences, reception, exaltation, trigons, bounds), the solar phase cycle (speed, direction, visibility, phase, phasis), lunar considerations (course, phases, bonding, nodes, bending, eclipses, prenatal lunation), and aspects (configurations, witnessing, testimony, bonification, maltreatment, adherence, overcoming, rays). Finally, it brings all of these factors together in a powerful synthesis that unlocks the layers of a chart with unrivaled precision.

Es el libro perfecto para todos aquellos que desean entender las entrañas del complejo mundo de los libros en el siglo XXI. Con un lenguaje ameno y positivo, en este libro lleno de ejemplos prácticos y ejercicios, Manuel Pimentel une su experiencia en los ámbitos de la empresa y de la cultura para revelar al lector, paso a paso, qué es, cómo se crea y cómo se gestiona una editorial. Aquí aprenderemos cuáles es el tiempo y los procesos necesarios para la elaboración de un libro, cómo se establece un presupuesto, cuáles son los costes de producción, qué son los gastos generales de nuestra empresa y cómo deben asimilarse a cada título editado, cómo se calcula el precio de venta al público y la tirada de un libro, cuáles son los organismos y los socios necesarios para llevar a cabo un proyecto empresarial de este tipo, así como de qué forma debemos administrar nuestra editorial para hacerla competitiva y rentable. El manual analiza también el paisaje en el que se desarrolla la actual industria del libro. En sus páginas se hace un recorrido histórico y se ilustran las tendencias empresariales contemporáneas que rigen el mercado de las publicaciones: la concentración en grandes grupos, el

incremento de la edición de bolsillo, la obsesión por el best seller, el aumento del interés por los temas globales, pero también por los locales, el uso de nuevas tecnologías, los lanzamientos multimedia, el creciente mercado de derechos secundarios, la función del editor como dinamizador cultural o la sobreabundancia de oferta frente a la demanda. Manual del Editor incluye un valioso apartado dedicado a la teleformación o e-learning que permitirá al lector descubrir las sendas de futuro del dinámico y apasionante negocio de la edición.

« Sencillamente quiero ayudarle a comprender cómo funciona una editorial y proporcionarle algunas herramientas para sobrevivir en un mundo en el que la complejidad va en parejo a su belleza. No hace falta, lector, que se vista con traje de etiqueta. Póngase el mono de trabajo y prepárese a ensuciarse con la grasa, el óxido y el humo que produce en su funcionamiento el complejo, pero fascinante, mecanismo editorial. » Manuel Pimentel. « La obra va destinada a todos aquellos que quieren lanzarse al mundo editorial. Pimentel desnuda el negocio y cuenta todos los detalles económicos ». Lucía Martín, *Capital Woodworking* Echo Dot 3.ª generación manual de usuario

How did the monks of the Egyptian desert fight against the demons that attacked them with tempting thoughts? According to Evagrius of Pontus (345399), one of the greatest spiritual directors of ancient monasticism, the monk should talk back to demons with relevant passages from the Bible. His book lists over 500 thoughts or circumstances in which the demon-fighting monk might find himself, along with the biblical passages with which the monk should respond.
